Transforming Criminal Justice? Jane Donoghue, 2014-04-03 Why is punishment not more effective Why do we have such high re-offending rates How can we deal with crime and criminals in a more cost effective way Over the last decade in particular the United Kingdom in common with other jurisdictions such as Canada the United States US and Australia has sought to develop more effective ways of responding to criminal behaviour through court reforms designed to address specific manifestations of crime Strongly influenced by developments in US court specialisation problem solving and specialist courts including domestic violence courts drugs courts community courts and mental health courts have proliferated in Britain over the last few years These courts operate at the intersection of criminal law and social policy and appear to challenge much of the traditional model of court practice In addition policy makers and practitioners have made significant attempts to try to embed problem solving approaches into the criminal justice system more widely Through examination of original data gathered from detailed interviews with judges magistrates and other key criminal justice professionals in England and Wales as well as analysis of legislative and policy interventions this book discusses the impact of the creation and development of court specialisation and problem solving justice This book will be essential reading for students and academics in the fields of criminology criminal justice criminal law socio legal studies and sociology as well as for criminal justice practitioners and policy makers

Prostitution Policy in the Nordic Region May-Len Skilbrei, Charlotta Holmström, 2016-04-08 There is great interest internationally in the development of prostitution policies in the Nordic countries after Sweden Norway and Iceland have introduced general bans against buying sex whilst selling sex remains legal In addition there is a partial ban against buying sex in Finland This is a different approach from that of several other

European countries where we have seen a decriminalisation of third party involvement in prostitution as well as to that of the USA which criminalises both the buying and selling of sexual services Thus the Nordic countries are often treated as representatives of a Nordic model of prostitution policies In this book the first on the subject Skilbrei and Holmström argue that these models of policies or policy regimes tend to ignore the trajectories contexts and consequences of the full range of approaches to prostitution thus they are too simplistic and static Prostitution policies in the Nordic countries are multifaceted and dynamic and cannot be represented as following a straight path and detached from empirical contexts Their analysis treats Nordic prostitution policies both as a product of history of current national and Nordic debates and of international obligations and changes in the international and national prostitution markets Furthermore they argue that a broad understanding of the relevant context is necessary so as to place Nordic prostitution policies within broader policy concerns related to gender class ethnicity sexuality social welfare immigration and organised crime as well as to neoliberal forms of governance *Billboard* ,2009-07-18 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends
