23 in the Classroom shares moments of kindness and difficulties that arise when working with students teachers and parents A shepherd and a teacher must have similar management skills for success to be achieved The last part of Psalm 23 in the Classroom contains eight biology lessons that were fun to teach because students were highly interested in the lessons The lesson comparing evolution to creation lasted for three days One day was spent on evolution theories one day on the biblical creation and one day on scientific information mentioned in scripture hundreds and even thousands of years before modern science confirmed what the Bible already explained The last lessons were about mankind s reproductive systems These lessons were taught for sixteen years without a problem from parents administrators or the Six O clock News When I became an elementary principal these same lessons were taught to grade 6 students without problems My favorite saying to students was Were the different components of male and female reproduction systems an accident of nature or were they planned to complement each other **Biology** Edward C. Gruber,1963 Biology Study Sheets Edwin Franklin Sanders,1936

McGraw-Hill Education SAT Subject Test Biology E/M 4th Ed.
