
BCAT Practice Exam Questions

Which of the following statements is true?

- A. Accurate data is sometimes necessary for making sure that behavior change plans are relevant to the person receiving them.
- B. Accurate data is always necessary for building behavior change plans and measuring progress.
- C. If most of the data collected is accurate, then it will be enough to make decisions about the behavior.
- D. If only a small amount of data is collected over time, we still can make conclusions about the success of failure of a treatment plan. - correct answer B

Under What circumstances is it alright not to take data immediately after a behavior occurs?

- A. When you don't have a pencil or data collection device handy.
- B. When it is time to transition to another activity and you might have time later.
- C. When the demands of the intervention of the behavior of the person precludes taking data immediately. - correct answer C

Least intrusive interventions are preferable because:

- A. They offer the person a greater opportunity to self-monitor their own behavior.
- B. They are not preferable because they take too long to be affective.
- C. They are the easiest to use.
- D. they are always appropriate. - correct answer A
