spirit and substance of the music education movement for the inhabitants of working class neighborhoods. These trainers adapted standard musical precepts, traditional folk practices and popular music conventions to create something new and vital. Bessemer's musical values directly influenced the early development of gospel quartet singing in Chicago and New Orleans through the authority of emigrant trainers whose efforts bear witness to the effectiveness of trickle-down black music education. A cappella gospel quartets remained prominent well into the 1950s but by the end of the century the close harmony aesthetic had fallen out of practice and the community-based trainers who were its champions had virtually disappeared, foreshadowing the end of this remarkable musical tradition. **The New Blue Music** Richard J.

Ripani, 2009-09-23 *Rhythm* John Lee Hooker Ray Charles James Brown Earth Wind Michael Jackson Public Enemy Mariah Carey and Usher takes center stage as the author illustrates how R & B has not only retained its traditional core style but has also experienced a re-Africanization over time. By investigating musical elements of form, style and content in R & B and offering numerous musical examples, the book shows the connection between R & B and other forms of American popular and religious music such as spirituals, ragtime, blues, jazz, country, gospel and rock & roll. With this evidence in hand, the author hypothesizes the existence of an even larger musical super-genre which he labels The New Blue Music. **Perspectives on American Music, 1900-1950** Michael Saffle, 2012-10-12 The essays in this collection reflect the range and depth of musical life in the United States during the first half of the twentieth century. Contributions consider the rise and triumph of popular forms such as jazz, swing and blues as well as the contributions to art music of composers such as Ives, Cage and Copland among others. American contributions to music technology and dissemination and the role of these forms in extending the audience for music is also a focus. **The Influence of Music on the Development of the Church of God (Cleveland, Tennessee)** Benson

Vaughan, 2018-03-23 This book examines the influence of music on the development of the Church of God, Cleveland, Tennessee. This narrative is historically driven but relies upon an interdisciplinary approach to draw on the insights of ecclesiology, theology, liturgiology, church development and especially music. This study utilizes a chronological and systematic approach to the relationship between music and the Church of God in the United States during the first 125 years of the denomination's history from 1886 to 2011. For over a century, music has been an often neglected dialogue partner at the table of academic discussion and this research argues for recognition and a proper place in Pentecostal history. Along with primary and secondary sources, the important element of living archives is investigated in this work; these are interviews with people who participated in historical music events in the Church of God. The book also relies upon musical examples to explore the influence of music upon the shaping of the denomination's history and theology. **Old Ship of Zion** the late Walter F.

Pitts, 1996-10-24 This book retraces the African origins of African American forms of worship. During a five-year period in the field, Pitts played the piano at and recorded numerous worship services in black Baptist churches throughout rural Texas. His historical comparisons and linguistic analyses of this material uncover striking parallels between Afro-Baptist services and

the religious rituals of Western and Central Africa as well as other African derived rituals in the United States Sea Islands the Caribbean and Brazil Pitts demonstrates that African and African American worship share an underlying binary ritual frame the somber melancholy of the first frame and the high emotion of the second frame Pitts s revealing perspective on this often misunderstood aspect of African American religion provides an investigative model for the study of diaspora cultural practices and the residual influence of their African sources A Guide to Non-Jazz Improvisation: Mandolin Edt.
