### **Blockchain, Fintech, and Islamic Finance** Hazik

Mohamed, Hassnain Ali, 2022-09-06 Following the success of the first edition that brought attention to the digital revolution in Islamic financial services comes this revised and updated second edition of Blockchain Fintech and Islamic Finance. The authors reiterate the potential of digital disruption to shrink the role and relevance of today's banks while simultaneously creating better, faster, cheaper services that will be an essential part of everyday life. Digital transformation will also offer the ability to create new ways to better comply with Islamic values in order to rebuild trust and confidence in the current financial system. In this new edition, they explore current concepts of decentralized finance (DeFi), distributed intelligence, stablecoins, and the integration of AI, blockchain, data analytics, and IoT devices for a holistic solution to ensure technology adoption in a prudent and sustainable manner. The book discusses crucial innovation, structural, and institutional developments for financial technologies, including two fast-growing trends that merge and complement each other: tokenization, where all illiquid assets in the world, from private equity to real estate and luxury goods, become liquid and can be traded more efficiently; and second, the rise of a new tokenized economy where inevitably new rules and ways to enforce them will develop to fully unleash their capabilities. These complementary and oft-correlated trends will complete the decentralization of finance and will influence the way future financial services will be implemented. This book provides insights into the shift in processes as well as the challenges that need to be overcome for practical applications for AI and blockchain and how to approach such innovations. It also covers new technological risks that are the consequence of utilizing frontier technologies such as AI, blockchain, and IoT. Industry leaders, Islamic finance professionals, along with students and academics in the fields of Islamic finance and economics will benefit immensely from this book.

### **Preventable** Andy Slavitt, 2025-09-23 NATIONAL BESTSELLER

Painfully good. The book could have been called *Outrageous*. The story Andy Slavitt tells is not just about Trump's monumental failures but also about the deeper ones that started long before with our health system, our politics, and more. Atul Gawande, author of *Being Mortal*, the definitive behind-the-scenes look at the U.S. Coronavirus crisis from one of the most recognizable and influential voices in healthcare. From former Biden Senior Advisor Andy Slavitt, *Preventable* is the definitive inside account of the United States' failed response to the Coronavirus pandemic. Slavitt chronicles what he saw and how much could have been prevented: an unflinching investigation of the cultural, political, and economic drivers that led to unnecessary loss of life. With unparalleled access to the key players throughout the government on both sides of the aisle, the principal public figures as well as the people working on the frontline involved in fighting the virus, Slavitt brings you into the room as fateful decisions are made and focuses on the people at the center of the political system: health care system patients and caregivers. The story that emerges is one of a country in which, despite the heroics of many, bad leadership, political and cultural fractures, and an unwillingness to sustain sacrifice lit a fuse that is difficult to extinguish. Written in the tradition of *The Big Short*, *Preventable* continues Andy Slavitt's important work of addressing the uncomfortable realities that brought

America to this place And he puts forth the solutions that will prevent us from being here again ensuring a better stronger country for everyone      **The Report: Indonesia 2020** Oliver Cornock, Indonesia is the world s 16th largest economy and presents an enticing opportunity for investors with ongoing reform efforts and attractive demographics Meanwhile a booming start up ecosystem signals the country s rising consumer power and regional influence While headwinds are expected to follow Covid 19 Indonesia s strong foundations will help maintain momentum in the medium to long term
