Implementation of EU Readmission Agreements Sergio Carrera,2016-08-15 By examining the implementation dynamics of EU Readmission Agreements EURAs this book addresses the practical reasons why irregular immigrants cannot be expelled EURAs are one of the vital legal instruments framing EU external migration law with regard to the expulsion of irregular immigrants yet their implementation has met with various obstacles Above all the process of determining an individual s legal identity has proven to be one of the most controversial aspects in the implementation of EURAs The analysis shows that the process of identifying who is whose national in the context of readmission creates two existential dilemmas first from the perspective of the sovereignty of third countries of origin and the legal standards laid out in international instruments as regards states powers in determining nationality and second regarding the agency of the individual as a holder of fundamental human rights How do the EURAs deal with or aim at alleviating these identity determination dilemmas The book provides a comparative analysis of the administrative procedures and rules envisaged by

EURAs aimed at proving or presuming the nationality of the persons to be readmitted to their country of origin. It focuses on the ways in which nationality is to be determined or presumed in the scope of the 2010 EURA with Pakistan and compares it with those foreseen in the EURAs with Armenia, Azerbaijan, Cape Verde, Georgia, and Turkey. As such, the book provides a unique and up-to-date study of EURAs and their implementation challenges in the broader context of EU external migration law and policy.

New Critical Spaces in Transitional Justice Arnaud Kurze, Christopher K. Lamont, 2019-01-10. Since the 1980s, transitional justice mechanisms have been increasingly applied to account for mass atrocities and grave human rights violations throughout the world. Over time, post-conflict justice practices have expanded across continents and state borders and have fueled the creation of new ideas that go beyond traditional notions of amnesty, retribution, and reconciliation. Gathering work from contributors in international law, political science, sociology, and history, *New Critical Spaces in Transitional Justice* addresses issues of space and time in transitional justice studies. It explains new trends in responses to post-conflict and post-authoritarian nations and offers original empirical research to help define the field for the future.

Stan Cox, Paul Cox, 2016-07-12 We've always lived on a dangerous planet but its disasters aren't what they used to be How the World Breaks gives us a breathtaking new view of crisis and recovery on the unstable landscapes of the Earth's hazard zones Father and son authors Stan and Paul Cox take us to the explosive fire fronts of overheated Australia the future lost city of Miami the fights over whether and how to fortify New York City in

the wake of Sandy the Indonesian mud volcano triggered by natural gas drilling and other communities that are reimagining their lives after quakes superstorms tornadoes and landslides In the very decade when we should be rushing to heal the atmosphere and address the enormous inequalities of risk a strange idea has taken hold of global disaster policy resilience Its proponents say that threatened communities must simply learn the art of resilience adapt to risk and thereby survive This doctrine obscures the human hand in creating disasters and requires the planet s most beleaguered people to absorb the rush of floodwaters and the crush of landslides freeing the world economy to go on undisturbed The Coxes great contribution is to pull the disaster debate out of the realm of theory and into the muck and ash of the world s broken places There we learn that change is more than mere adaptation and life is more than mere survival Ultimately How the World Breaks reveals why unless we address the social ecological and economic roots of disaster millions more people every year will find themselves spiraling into misery It is essential reading for our time
