Afghanistan And Pakistan Conflict Extremism And Resistance To Modernity:

Afghanistan and Pakistan Riaz Mohammad Khan, 2011 *Reconciliation and Social Healing in Afghanistan* Heela Najibullah, 2017-01-11 Heela Najibullah analyzes the Afghan reconciliation processes through the lenses of transrational peace philosophy and Elicitive Conflict Transformation. The research highlights two Afghan governments' reconciliation processes in 1986 and 2010 and underlines the political events that shaped the 1986 National Reconciliation Policy, drawing lessons for future processes. The author points out the historical and geopolitical patterns indicating regional and global stakeholders' involvement in Afghan politics. Social healing through a middle-out approach is the missing and yet crucial component to achieve sustainable reconciliation in Afghanistan. *Violence and Resistance in Pakistan* Faryal Leghari, 2025-09-30 This book examines violence and political developments in the western borderland communities of Pakistan, a postcolonial militarist state in the Global South, through the lens of gendered experiences of insecurity. It provides a fresh perspective on comprehending the perception and experience of security among individuals, uncovering the role of gender hierarchies and gendered hierarchies in shaping state policies and personal encounters with security and violence. Based on ground-based qualitative research in depth interviews with Mahsud men and women, military and government officials, academics, security experts, and aid organization officials, each chapter foregrounds an analysis of militarisation, violence, and resistance through varied thematic lenses. The result is a rich and original study of Waziristan where conflict and security are presented through a feminist geopolitical perspective, calling for fresh comprehensions of gendered understandings of militarisation and security and a reappraisal of vulnerable populations. Addressing a gap in the literature regarding the relationship between state peripheral communities, violence, security, and militarisation in the Global South, this book analyses power relations through a gendered lens and explores the impact of armed violence in everyday life. It will be of interest to researchers in the field of regional geopolitical and security studies, postcolonial states, and militarisation in the Global South, as well as borderland studies, gender studies, and South Asian studies. **Extremism and Counter-Extremism Narratives in Pakistan** Sadia Nasir, 2023-05-19 The book provides an extensive analysis of extremism, extremist narratives, and counter narratives and their role in consolidating exclusive religious, cultural, and social identities in Pakistan. Focusing on the construction and institutionalization of extremist tendencies, the book studies the process of the adoption of the narrow interpretation of religion and society which subsequently was equated with national identity. It looks at the efforts of counter extremism narratives which tend to focus on violent extremism while overlooking non-violent manifestations. The author highlights that the main issue with counter narratives is the difficulty in presenting extremism and its narratives as a threat since they have been normalized with the state being part of facilitating and building them. A valuable and much required contribution to the existing literature on extremism and narrative building in Pakistan, this book would help students, academics, and policymakers in identifying the limitations of counter narratives in Pakistan while

providing them with a detailed overview of extremism and extremist narratives It will also be of interest to researchers studying Security Studies and Asian Politics especially in the context of South Asia

The Decline and Fall of Republican Afghanistan Ahmad Shuja Jamal, William Maley, 2023-04-01 The Taliban s takeover of Afghanistan in 2021 was the result of declining active support for the government and of waste and inefficiency in aid delivery Yet while corrosive these problems were not in themselves sufficient to have brought about a collapse To a significant degree they were the result of early failings in institutional design reflecting an American inclination to pursue short term policy approaches that created perverse incentives thus interfering with the long term objective of stability This book exposes the true factors underpinning Kabul s fall The Afghan Republic came under relentless attack from Taliban insurgents who depended critically on Pakistani support It also suffered a creeping invasion that put the government on the back foot as the US tried and failed to deal with Pakistan s perfidy The fatal blow came when bored US leaders naively cut an exit deal with the enemy fatally compromising the operation of the Afghan army and air force and triggering the final collapse with top leaders at odds over whether to make a final stand in Kabul The Afghan Republic did not simply decline and fall It was betrayed

Foreign Policy Breakthroughs Robert L. Hutchings,Jeremi Suri,2015 Diplomacy is essential to the conduct of foreign policy and international business in the twenty first century Yet few international actors are trained to understand or practice effective diplomacy Poor diplomacy has contributed to repeated setbacks for the United States and other major powers in the last decade Drawing on deep historical research this book aims to reinvent diplomacy for our current era The original and comparative research provides a foundation for thinking about what successful outreach negotiation and relationship building with foreign actors should look like Instead of focusing only on failures as most studies do this one interrogates success The book provides a framework for defining successful diplomacy and implementing it in diverse contexts Chapters analyze the activities of diverse diplomats including state and non state actors in enduring cases including post WWII relief the rise of the non aligned movement the Nuclear Non Proliferation Treaty the U S opening to China the Camp David Accords the reunification of Germany the

creation of the European Union the completion of the North American Free Trade Agreement and relief aid to pre 2001 Afghanistan The cases are diverse and historical but they are written with an eye toward contemporary challenges and opportunities The book closes with systematic reflections on how current diplomats can improve their activities abroad Foreign Policy Breakthroughs offers rigorous historical insights for present policy **Teaching Peace and Conflict** Catherine Vanner,Spogmai Akseer,Thursica Kovinthan Levi,2022-06-14 This book illustrates the multiple roles of textbooks as victim transformer and accomplice to conflict by introducing the Intersecting Roles of Education in Conflict IREC framework for use in the research development production distribution and dissemination of textbooks and learning materials The framework illustrates these three potentially overlapping roles by mapping the complex educational contexts of conflict affected societies and considering how textbooks learning materials and education systems more broadly may simultaneously operate within these various roles Country case studies from Asia Europe Africa and the Middle East are used to analyze primary and secondary school textbook development content and application from a variety of approaches that articulate conflict as protracted and or socio political violence The breadth of case studies shows how conflict discourse circulates in educational systems and materials in a wide range of contexts indicating that the complexity of the relationship between textbooks and conflict is not unique to one culture geographic region or type of conflict The China-Pakistan Axis Andrew Small,2020 The first book length analysis of an often secretive but mutually beneficial military and strategic partnership *Pakistans Spy Agencies* Musa Khan Jalalzai,2020-08-03 The imbalance of Pakistan s civil military relations has caused misperceptions about the changing role of intelligence in politics The country maintains 32 secret agencies working under different democratic political and military stakeholders who use them for their own interests Established in 1948 The ISI was tasked with acquiring intelligence of strategic interests and assessing the intensity of foreign threats but political and military stakeholders used the agency adversely and painted a consternating picture of its working environment The civilian intelligence agency Intelligence Bureau IB has been gradually neglected due to the consecutive military rule and weak democratic governments The ISI today seems the most powerful agency and controls the policy decisions The working of various intelligence agencies militarisation of intelligence and ineffectiveness of the civilian intelligence are some of the issues discussed in the book Routledge Companion to Intelligence Studies Robert Dover,Michael S. Goodman,Claudia Hillebrand,2013-09-05 The Routledge Companion to Intelligence Studies provides a broad overview of the growing field of intelligence studies The recent growth of interest in intelligence and security studies has led to an increased demand for popular depictions of intelligence and reference works to explain the architecture and underpinnings of intelligence activity Divided into five comprehensive sections this Companion provides a strong survey of the cutting edge research in the field of intelligence studies Part I The evolution of intelligence studies Part II Abstract approaches to intelligence Part III Historical approaches to intelligence Part IV Systems of intelligence Part V Contemporary challenges With a broad focus on the origins
