Africa Human Development Report 2012, 2012 Sub Saharan Africa has the highest prevalence of hunger in the world Until this situation improves the human development prospects of millions of Africans will remain at risk UNDP's first Africa Human Development Report shows that food security and human development reinforce each other If African countries are to realise their long term potential the report says they must boost agricultural productivity to both improve the availability of food and reduce poverty Policies to enhance nutrition are central to ensuring that access to food translates into human development The report argues further that local populations must have the resources and decision making power to produce and consume nutritious food throughout the year overcoming the risks represented by continuing conflict climate change and variations in food prices African futures: towards a sustainable emergence? African Dept., 2012-10-15 Economic conditions in sub Saharan Africa have remained generally robust despite a sluggish global economy The near term outlook for the region remains broadly positive and growth is projected at 5.1-4 percent a year in 2012-13 Most low income countries are projected to continue to grow strongly supported by domestic demand including from investment The outlook is less favorable for many of the middle income countries especially South Africa that are more closely linked to European markets and thus experience a more noticeable drag from the external environment The main risks to the outlook are an intensification of financial stresses in the euro zone and a sharp fiscal adjustment in the US the so called fiscal cliff **African Economic Outlook 2014 Global Value Chains and Africa's Industrialisation** African Development Bank, OECD, United Nations Development Programme, 2014-05-19 The African Economic Outlook 2014 analyses the continent's growing role in the world economy and predicts two year macroeconomic prospects It details the performance of African economies in crucial areas Development in Africa George Kararach, Hany Besada, Timothy M. Shaw, 2016-10-26 Though the fact gets little international attention in recent years countries across Africa have seen unprecedented economic growth a boom that stretches back to 2000 and has made a huge difference in the lives of citizens in countless nations Nonetheless the continent still faces major development challenges This book brings together a sterling
