After The Imperial Turn Thinking With And Through The Nation:

After the Imperial Turn Antoinette Burton, 2003-05-29 Essays in this collection assess the nation as a subject of disciplinary inquiry considering both its enduring relevance and its inadequacy as an analytical category for studying history literature and culture

Creating White Australia Jane Carey, Claire McLisky, 2009-11-16 The adoption of White Australia as government policy in 1901 demonstrates that whiteness was crucial to the ways in which the new nation of Australia was constituted And yet historians have largely overlooked whiteness in their studies of Australia's racial past *Creating White Australia* takes a fresh approach to the question of race in Australian history It demonstrates that Australia's racial foundations can only be understood by recognising whiteness too as race Including contributions from some of the leading as well as emerging scholars in Australian history it breaks new ground by arguing that whiteness was central to the racial ideologies that created the Australian nation This book pursues the foundations of white Australia across diverse locales It also situates the development of Australian whiteness within broader imperial and global influences As the recent apology to the Stolen Generations the Northern Territory Intervention and controversies over asylum seekers reveal the legacies of these histories are still very much with us today

Empires Without Imperialism Jeanne Morefield, 2014 For over two centuries liberal apologists for empire in Britain and America have been plagued by the contradictions between political liberalism and the exclusive anti democratic and violent practices of imperialism contradictions that become particularly obvious during periods of perceived imperial crisis This book interrogates the complicated rhetoric of several pro imperial public intellectuals from both the late British Empire and contemporary America two eras marked by intense anxiety about decline

German Division as Shared Experience Erica Carter, Jan Palmowski, Katrin Schreiter, 2019-06-06 Despite the nearly three decades since German reunification there remains little understanding of the ways in which experiences overlapped across East West divides *German Division as Shared Experience* considers everyday life across the two Germanies using perspectives from history literary and cultural studies anthropology and art history to explore how interconnections as well as fractures between East and West Germany after 1945 were experienced lived and felt Through its novel approach to historical method the volume points to new understandings of the place of narrative form and lived sensibility in shaping Germans simultaneously shared and separate experiences of belonging during forty years of division from 1945 to 1990

Empire in Question Antoinette Burton, 2011-05-03 Essays written by Antoinette Burton since the mid 1990s trace her thinking about modern British history and engage debates about how to think about British imperialism in light of contemporary events

India and the British Empire Douglas M. Peers, Nandini Gooptu, 2017-02-09 South Asian History has enjoyed a remarkable renaissance over the past thirty years Its historians are not only producing new ways of thinking about the imperial impact and legacy on South Asia but also helping to reshape the study of imperial history in general The essays in this collection address a number of these important developments delineating not only the complicated

interplay between imperial rulers and their subjects in India but also illuminating the economic political environmental social cultural ideological and intellectual contexts which informed and were in turn informed by these interactions Particular attention is paid to a cluster of binary oppositions that have hitherto framed South Asian history namely colonizer colonized imperialism nationalism and modernity tradition and how new analytical frameworks are emerging which enable us to think beyond the constraints imposed by these binaries Closer attention to regional dynamics as well as to wider global forces has enriched our understanding of the history of South Asia within a wider imperial matrix Previous impressions of all powerful imperialism with the capacity to reshape all before it for good or ill are rejected in favour of a much more nuanced image of imperialism in India that acknowledges the impact as well as the intentions of colonialism but within a much more complicated historical landscape where other processes are at work

When Broadway Was the Runway Marlis Schweitzer, 2011-08-19 Selected by Choice magazine as an Outstanding Academic Title for 2009 When Broadway Was the Runway explores the central and largely unacknowledged role of commercial Broadway theater in the birth of modern American fashion and consumer culture Long before Hollywood's red carpet spectacles Broadway theater introduced American women to the latest styles At the beginning of the twentieth century theater impresarios captured the imagination of their largely female patrons by transforming the stage into a glorious site of consumer spectacle Theater historian Marlis Schweitzer examines how these impresarios presented the dresses actresses wore onstage as well as the jewelry and hairstyles they chose as commodities that were available for purchase in nearby department stores and salons The Merry Widow Hat designed for the hit operetta of the same name sparked an international craze and the dancer Irene Castle became a fashion celebrity when she anticipated the flapper look of the 1920s by nearly a decade Not only were the latest styles onstage but advertisements appeared throughout theaters in programs and on the curtains while magazines such as Vogue vied for the rights to publish theatrical costume sketches and Harper's Bazar enticed readers with photo spreads of actresses in couture This combination of spectatorship and consumption was a crucial step in the formation of a mass market for consumer goods and the rise of the cult of celebrity Through historical analysis and dozens of early photographs and illustrations Schweitzer aims a spotlight at the cultural and economic convergence of the theater and fashion industries in the United States

Europe after Empire Elizabeth Buettner, 2016-03-24 A pioneering comparative history of European decolonization from the formal ending of empires to the postcolonial European present

Cracks in the Dome: Fractured Histories of Empire in the Zanzibar Museum, 1897-1964 Sarah Longair, 2016-03-09 As one of the most monumental and recognisable landmarks from Zanzibar's years as a British Protectorate the distinctive domed building of the Zanzibar Museum also known as the Beit al Amani or Peace Memorial Museum is widely known and familiar to Zanzibaris and visitors alike Yet the complicated and compelling history behind its construction and collection has been overlooked by historians until now Drawing on a rich and wide range of hitherto unexplored archival photographic architectural and material evidence

this book is the first serious investigation of this remarkable institution Although the museum was not opened until 1925 this book traces the longer history of colonial display which culminated in the establishment of the Zanzibar Museum It reveals the complexity of colonial knowledge production in the changing political context of the twentieth century British Empire and explores the broad spectrum of people from diverse communities who shaped its existence as staff informants collectors and teachers Through vivid narratives involving people objects and exhibits this book exposes the fractures contradictions and tensions in creating and maintaining a colonial museum and casts light on the conflicted character of the colonial mission in eastern Africa

World of Sport Matthew Taylor, 2024-12-10 World of Sport examines the development of modern sport from the mid nineteenth century to the 1960s in the light of transnational approaches to history Critically probing existing studies and offering new insights this volume demonstrates that while sport was a national and international phenomenon it was invariably constructed transnationally Taking in topics ranging from the dissemination of football codes to transpacific surfing cultures and the touring lives of baseball and hockey players to the contact zones of international competition it emphasises the importance of transnational perspectives in the way people around the globe experience sport Like other forms of popular culture sport cannot be properly understood without reference to the cross national connections that helped to disseminate rules and regulations circulated styles of play and performance and drove forward regional and international competition Drawing on case studies that range time periods and continents World of Sport is a must read for students and researchers interested in the place of sport in the interconnected modern world and the transnational origins of the global sporting order in the twenty first century

Making the Empire Work Daniel E. Bender, Jana K. Lipman, 2015-07-17 Millions of laborers from the Philippines to the Caribbean performed the work of the United States empire Forging a global economy connecting the tropics to the industrial center workers harvested sugar cleaned hotel rooms provided sexual favors and filled military ranks Placing working men and women at the center of the long history of the U S empire these essays offer new stories of empire that intersect with the grand narratives of diplomatic affairs at the national and international levels Missile defense Cold War showdowns development politics military combat tourism and banana economics share something in common they all have labor histories This collection challenges historians to consider the labor that formed worked confronted and rendered the U S empire visible The U S empire is a project of global labor mobilization coercive management military presence and forced cultural encounter Together the essays in this volume recognize the United States as a global imperial player whose systems of labor mobilization and migration stretched from Central America to West Africa to the United States itself Workers are also the key actors in this volume Their stories are multi vocal as workers sometimes defied the U S empire s rhetoric of civilization peace and stability and at other times navigated its networks or benefited from its profits Their experiences reveal the gulf between the American denial of empire and the lived practice of management resource exploitation and military exigency When historians place labor and working people at the center empire appears as

a central dynamic of U S history **Archive Stories** Antoinette Burton,2006-01-25 This anthology compares scholarly findings from around the world to comment on the creation definition and use of archival evidence in the writing of history

The Conquest of History Christopher Schmidt-Nowara,2006-11-06 As Spain rebuilt its colonial regime in Cuba Puerto Rico and the Philippines after the Spanish American revolutions it turned to history to justify continued dominance The metropolitan vision of history however always met with opposition in the colonies The Conquest of History examines how historians officials and civic groups in Spain and its colonies forged national histories out of the ruins and relics of the imperial past By exploring controversies over the veracity of the Black Legend the location of Christopher Columbus s mortal remains and the survival of indigenous cultures Christopher Schmidt Nowara s richly documented study shows how history became implicated in the struggles over empire It also considers how these approaches to the past whether intended to defend or to criticize colonial rule called into being new postcolonial histories of empire and of nations **History After**

Hobsbawm John Arnold,Matthew Hilton,Jan Rüger,2018 What does it mean and what might it yet come to mean to write history in the twenty first century History After Hobsbawm brings together leading historians from across the globe to ask what being an historian should mean in their particular fields of study Taking their cue from one of the previous century s greatest historians Eric Hobsbawm and his interests across many periods and places the essays approach their subjects with an underlying sense of what role an historian might seek to play and attempt to help twenty first century society understand how we got here They present new work in their sub fields but also point to how their specialisms are developing how they might further grow in the future and how different areas of focus might speak to the larger challenges of history both for the discipline itself and for its relationship to other fields of academic inquiry Like Hobsbawm the authors in this collection know that history matters They speak to both the past and the present and in so doing introduce some of the most exciting new lines of research in a broad array of subjects from the medieval period to the present **Empire's Twin** Ian Tyrrell,Jay

Sexton,2015-02-17 Empire s Twin broadens our conception of anti imperialist actors ideas and actions it charts this story across the range of American history from the Revolution to our own era and it opens up the transnational and global dimensions of American anti imperialism **Focus: Music, Nationalism, and the Making of a New Europe** Philip V. Bohlman,2010-09-13 Focus Music Nationalism and the Making of the New Europe surveys the intersection of music and nationalism by tracing its historical development and documenting its persistence today Contrasting different types of music reveals how music expresses core ideas of nationalism for example folk music in the nineteenth century and popular music in the twenty first *A Crooked Line* Geoff Eley,2005-10-24 A first hand account of the genealogy of the discipline and of the rise of a new era of social history by one of the leading historians of a generation

Cosmopolitan Style Rebecca L. Walkowitz,2006 This is a groundbreaking work which links the novels of modernist contemporary and postcolonial authors to rethink the political nature of cosmopolitanism *Art and Identity* Vicky Coltman,2019-11-14 This lively and erudite cultural

history examines how Scottish identity was experienced and represented in novel ways

Material Culture in Modern Diplomacy from the 15th to the 20th Century Harriet Rudolph, Gregor M. Metzger, 2016-12-05

The present volume aims at outlining a new field of research with regard to the history of diplomacy the material culture of diplomatic interaction in early modern and modern times The material culture of diplomacy includes all practices in foreign policy communication in which single artifacts samples of artifacts or else the whole material setting of diplomatic interaction is supposed to be constitutive for creating an intended effect in terms of diplomatic objectives The chapters of this volume focus on intercultural diplomacy in different regions of the world wherein diplomatic actors of various kinds might have been confronted by a whole universe of unfamiliar artifacts and artifact related practices Most of them concentrate on gift giving as a diplomatic practice that offers multiple insights in the complex dynamics of diplomatic relations between representatives of culturally highly diverse political entities In doing so they gainfully apply different theoretical approaches of material culture as an interdisciplinary field of study to the investigation of diplomatic cultures across the globe As a result it becomes obvious that future research into the history of diplomacy should take into account material practices much more thoroughly than has been done before
