Nym Mayhall,Elizabeth Prevost,2022-08-09 *British Murder Mysteries 1880 1965* Facts and Fictions conceptualizes detective fiction as an archive i e a trove of documents and sources to be used for historical interpretation By framing the genre as a shifting set of values definitions and practices the book historicizes the contested meanings of analytical categories like class race gender nation and empire that have been applied to the forms and functions of detection Three organizing themes structure this investigation fictive facticity genre fluidity and conservative modernity This volume thus shows how British detective fiction from the late nineteenth to the mid twentieth century both shaped and was shaped by its social cultural and political contexts and the lived experience of its authors and readers at critical moments in time *Clues: A Journal of Detection, Vol. 34, No. 1 (Spring 2016)* Elizabeth Foxwell,2016-09-19 For over two decades *Clues* has included the best scholarship on mystery and detective fiction With a combination of academic essays and nonfiction book reviews it covers all aspects of mystery and detective fiction material in print television and movies As the only American scholarly journal on mystery fiction *Clues* is essential reading for literature and film students and researchers popular culture aficionados librarians and mystery authors fans and critics around the globe **Sleuthing Miss Marple** Desirée Prideaux,2022-06-15 *Sleuthing Miss Marple* mirrors the structure and playful analytic style of a detective novel Beginning at the scene of the crime this investigation places Agatha Christie and the clue puzzle in historical context casting light on the methods the motives and in a sense the alibis that underpin Christie s crime fiction In keeping with the clue puzzle analytical method devised for this book each chapter builds towards a conclusion that delivers a surprising intellectual payoff This enquiry is

unapologetically textual in approach It constructs a rigorous evidence base drawn from the Marple short stories and novels and presents a useful interpretation of crime fiction scholarship This provides a foundation for original literary analyses that reveal Christie s engagements with gender roles and genre rules and the sleights of hand that they conceal Christie s modus operandi is uncovered as are the narrative strategies and literary devices that she deployed to ambush unwary readers Crucially this investigation shows how Christie s ingenious methods made it possible for an elderly spinster to get away with solving murder Sleuthing Miss Marple will be invaluable for students and researchers of crime fiction twentieth century literature and creative writing **Clues: A Journal of Detection, Vol. 34, No. 2 (Fall 2016)** Elizabeth

has become in the two hundred years since her death Some of the chapters explore adaptations or repurposings of her work while others trace her influence on a surprising variety of different kinds of writing sometimes even when there is no announced or obvious debt to her In so doing they also inevitably shed light on Austen herself Austen is often considered romantic and not often considered political but both those perceptions are challenged her as is the idea that she is primarily a writer for and about women Her books are comic and ironic but they have been reworked and drawn upon in very different genres and styles Collectively these essays testify to the extraordinary versatility and resonance of Austen s books **The**

Empires of Antiquities Billie Melman,2020 Empires of Antiquities is a history of the rediscovery of the imperial civilizations of the ancient Near East in a modern imperial order that evolved between the outbreak of the First World War and the decolonization of the British Empire in the 1950s It explores the ways in which near eastern antiquity was redefined and experienced becoming the subject of imperial regulation modes of enquiry and international and national politics Billie Melman follows a series of globally publicized spectacular archaeological discoveries in Iraq Egypt and Palestine which made antiquity material visible and accessible as never before She demonstrates that the new definition and uses of antiquity and their relations to modernity were inseparable from the emergence of the post war international imperial order transnational

collaboration and crises the aspirations of national groups and collisions between them and the British mandates This study uniquely combines a history of the internationalization of archaeology and the rise of a new regime of antiquities under the oversight of the League of Nations and its institutions a history of British attitudes to and passion for near eastern antiquity and on the ground colonial policies and mechanisms as well as nationalist claims on the past It points at the centrality of the new mandate system Drawing on an unusually wide range of materials collected in archives in six countries as well as on material and visual evidence this volume weaves together imperial international and national histories and the history of archaeological discovery which it connects to imperial modernity *A Narratological Approach to Lists in Detective Fiction* Sarah J. Link, 2023-07-12 This open access book examines how the form of the list features as a tool for meaning making in the genre of detective fiction from the nineteenth to the twenty first century The book analyzes how both readers and detectives rely on listing as an ordering and structuring tool and highlights the crucial role that lists assume in the reading process It extends the boundaries of an emerging field dedicated to the study of lists in literature and caters to a newly revived interest in form and New Formalist approaches in narratological research The central aim of this book is to show how detective fiction makes use of lists in order to frame various conceptions of knowledge The frames created by these lists are crucial to decoding the texts and they can be used to demonstrate how readers can be engaged in the act of detection or manipulated into accepting certain propositions in the text *Dining Room Detectives* Silvia

Baucekova, 2015-09-04 In the structuralist understanding as proposed by John G Cawelti a classical detective novel is defined as a formula which contains prescribed elements and develops in a predefined ritualistic manner When described in this way the crime fiction formula very closely resembles a recipe when one cooks they also add prescribed ingredients in a predefined way in order to produce the final dish This surprising parallel serves as the starting point for this book's analysis of classical detective novels by Agatha Christie Here a structuralist approach to Golden Age crime fiction is complemented by methodology developed in the field of food studies in order to demonstrate the twofold role that food plays in Christie's novels namely its function as an element of the formula a literary device but also as a cultural sign Christie employed food on various different levels of her stories in order to portray characters construct plots and depict settings What is more incorporating domesticity and food in her novels helped her fundamentally alter the rigid conventions of the crime fiction genre as it developed in the nineteenth century and enabled her to successfully introduce the character of the female detective and to feminise the detective novel as such **Typewriter Century** Martyn Lyons, 2021-02-02 As a vehicle for outstanding creativity the typewriter has been taken for granted and was until now a blind spot in the history of writing practices *Forgetful Muses* Ian Lancashire, 2010-01-01 How can we understand and analyze the primarily unconscious process of writing In this groundbreaking work of neuro cognitive literary theory Ian Lancashire maps the interplay of self conscious critique and unconscious creativity *Forgetful Muses* shows how a writer's own anonymous that part of the mind

that creates language up to the point of consciousness is the genesis of thought Those thoughts are then articulated by an author's inner voice and become subject to critique by the mind's reader editor The reader editor engages with the anonymous which uses this information to formulate new ideas Drawing on author testimony cybernetics cognitive psychology corpus linguistics text analysis the neurobiology of mental aging and his own experiences Lancashire's close readings of twelve authors including Caedmon Chaucer Coleridge Joyce Christie and Atwood serve to illuminate a mystery we all share
