Babylonian Ceremonial Script in Its Scholarly Context Carole Roche-Hawley,2024-03-15 Since the advent of Assyriology in the early nineteenth century it has been known that two distinct scripts were used in ancient Mesopotamian inscriptions and documents One usefully characterized as cursive was used for the ephemeral documents of daily life as well as on most library and archival texts The other was a deliberately archaizing script reserved for ceremonial use This ceremonial script of Babylonian origin contained both archaic and archaizing signs and was in productive use for over two millennia not only in Babylonia but occasionally also in Assyria and beyond Yet to date there has been no systematic study devoted specifically to this ceremonial script nor any published syllabary of the archaic and archaizing signs it employs This volume attempts to rectify this deficiency by providing a substantive introduction to Babylonian ceremonial script along with a history of its modern study and several case studies of how the script was actually used The introduction is supplemented by an edition of the paleographic lists of the second and first millennia BCE which contain pedagogical inventories of the archaic and archaizing cuneiform signs illustrating how the ceremonial script was taught learned and transmitted in scholarly contexts   *Empire of Images* Alyson Roy,2024-04-01 Rome was an empire of images especially images that bolstered their imperial identity Visual and material items portraying battles myths captives trophies and triumphal parades were particularly important across the Roman empire But where did these images originate and what shaped them Empire of Images explores the development of the Roman visual language of power in the Republic in Iberian Peninsula the Gallic provinces and Greece and Macedonia centering the development of imperial imagery in overseas conquest Drawing on a range of material evidence this book argues that Roman imperial imagery developed through prolonged interaction with and adaptation by subjugated peoples Despite their starring role in Roman imagery the populations of Rome s provinces continuously reinterpreted and reimagined Roman images of power to navigate their membership in the new imperial community and in doing so contributed to the creation of a universal visual language that continues to shape how Rome is understood   "A Community of Peoples" Mahri Leonard-Fleckman,Lauren A.S. Murray,2024-01-18 An undulating flow of multi scalar exchanges pulsed across the surface of Aegean from the beginnings of the Bronze Age in the third millennium to the transition into the Iron Age nearly two thousand years later Such exchanges were variable in nature Most probably occurred within a rather circumscribed environment involving neighboring communities operating across the many real but traversable geographical boundaries that characterize the Aegean landscape ridges separating mountain plateaus rocky coastal stretches between bays or narrow straits amidst archipelagos This Element is focused on the less frequent but important long distance exchanges that connected people in the Aegean with the wider Mediterranean and European world especially focusing on interactions that may be classified as economic After reviewing basic definitions and discussing some methods and materials available for studying long distance exchange this Element presents a diachronic assessment of the geospatial scalar and structural characteristics of long distance exchange and inter regional economies   **The Oxford History of the Ancient Near East** Karen Radner,Nadine Moeller,Daniel T. Potts,2020 Offers a comprehensive comparative and integrative approach to the history of Western Asia and northeast Africa Integrates the latest epigraphic research and archacological discoverics Uses states and communities as the focal points of the narrative Fully illustrated with detailed cartography for each chapter Written by an international team of leading scholars Book jacket   Majestic Mirror or Mind-Bending Mirage Jens Bruun Kofoed,2025-03-13 Discover the profound insights on gender identity and sexuality through a biblical lens in this compelling book Delving into the Old Testament the author critiques modern gender theories tracing their evolution through feminist movements existentialism and social constructivism By contrasting these with a biblical perspective rooted in the creation story the book offers a thoughtful examination of today s complex gender discussions including identity expression and orientation Explore historical and theological views from ancient Mesopotamian cultures focusing on the worship of Inanna Ishtar and the shifting gender roles and sexual norms of the time The author defends a traditional biblical view challenging modern secular ideologies and arguing for a consistent understanding of the body sexuality and gender This book also provides valuable guidance for church leaders and pastors on navigating these sensitive topics in today s world Engage with a perspective that reconnects biological and theological truths offering a robust critique of contemporary feminist and transgender movements
