Landscape Grading Valerie Aymer, 2010 This study guide for

the LARE Section E Grading Drainage and Stormwater Management examination is written from the point of view of a test taker who has taken the test once and failed and taken it again successfully It is designed for the landscape architecture student the professional studying for the LARE and for people who need a refresher to better understand the process of grading The book focuses on how to solve a grading problem providing an overview of grading topics such as slopes interpolation contours landforms swale and sheet drainage ponds culverts plane surfaces berms paths stairs ramps and retaining walls A section on test taking tips is included to help direct your study habits The book includes 28 end of chapter exercises solutions and nine grading vignettes for practice **Building Structures** James Ambrose,Patrick

Tripeny,2011-10-18 The comprehensive reference on the basics of structural analysis and design now updated with the latest considerations of building technology Structural design is an essential element of the building process yet one of the most difficult to learn While structural engineers do the detailed consulting work for a building project architects need to know enough structural theory and analysis to design a building Most texts on structures for architects focus narrowly on the mathematical analysis of isolated structural components yet Building Structures looks at the general concepts with selected computations to understand the role of the structure as a building subsystem without the complicated mathematics New to this edition is a complete discussion of the LRFD method of design supplemented by the ASD method in addition to The fundamentals of structural analysis and design for architects A glossary exercise problems and a companion website and instructor s manual Material ideally suited for preparing for the ARE exam Profusely illustrated throughout with drawings and photographs and including new case studies Building Structures Third Edition is perfect for nonengineers to understand and visualize structural design
