

What is the Bloomberg Aptitude Test (BAT)?

The BAT is a two hour, one hundred multiple choice question test that offers students a granular assessment of their strengths and weaknesses. Over 200,000 students from over 3,500 universities have taken the BAT. It tests aptitude for finance across eight key performance areas required of all major finance roles including:

- News Analysis
- Economics
- Math Skills
- Analytical Reasoning
- Financial Statement Analysis
- Investment Banking
- Chart and Graph Analysis

The BAT is available for free on campus – find upcoming BAT sessions on [our website](#).

How does it work?

Bloomberg Institute collaborated with 100 entry-level recruiters and 40 finance professors around the world to create the BAT and develop questions. To ensure we use accurate content, we leverage finance information from Bloomberg News, Bloomberg Charts & Graphs.

After taking the BAT, students can opt to have their anonymous profile included in our Talent Search database. This database is used by recruiters daily to connect with candidates for internship and full time positions. Student information remains hidden from the recruiter, until they choose to accept a connection. Their contact information and resume is then released to the employer.
