*Summary of Investigations - the Saskatchewan Geological Survey* Saskatchewan Geological Survey, 1993     Salt Tectonics, Sediments and Prospectivity G. Ian Alsop, 2012 In this timely volume geoscientists from both industry and academia present a contemporary view of salt at a global scale The studies examine the influence of salt on synkinematic sedimentation its role in basin evolution and tectonics and ultimately in hydrocarbon prospectivity Recent improvements in seismic reflection acquisition and processing techniques have led to significant advances in the understanding of salt and sediment interactions both along the flanks of vertical or overturned salt margins and in subsalt plays such as offshore Brazil The book is broadly separated into five major themes covering a variety of geographical and process linked topics These are halokinetic sequence stratigraphy salt in passive margin settings Central European salt basins deformation within and adjacent to salt and salt in contractional settings and salt glaciers     **A Guided Tour of Mathematical Methods** Roel Snieder, 2004-09-23 Mathematical methods are essential tools for all physical scientists This second edition provides a comprehensive tour of the mathematical knowledge and techniques that are needed by students in this area In contrast to more traditional textbooks all the material is presented in the form of problems Within these problems the basic mathematical theory and its physical applications are well integrated The mathematical insights that the student acquires are therefore driven by their physical insight Topics that are covered include vector calculus linear algebra Fourier analysis scale analysis complex integration Green's functions normal modes tensor calculus and perturbation theory The second edition contains new chapters on dimensional analysis variational calculus and the asymptotic evaluation of integrals This book can be used by undergraduates and lower level graduate students in the physical sciences It can serve as a stand alone text or as a source of problems and examples to complement other textbooks     The Spectator ,1873     **More Hot Links** Cora M. Wright, 2002-08-27 This companion to the popular Hot Links by the same author provides informative annotations for an additional 300 fiction and nonfiction books contemporary and classic that support and enhance the middle school curriculum The selected titles represent top quality literature that ties into all areas of the curriculum The books were chosen for the quality of writing interest level appropriateness of illustrations and current availability Additionally the book includes a chapter highlighting the best of newly published literature and a chapter featuring titles that are presented in a unique and creative manner A Literature Links section in the back of the book offers an easy to read chart that tells you exactly in which curricular areas a book can be used Grades 5-9     *Catalog of Copyright Entries.
