*Handbook of Research on Teaching in Multicultural and Multilingual Contexts* Charamba, Erasmos, 2022-06-24 Several factors have resulted in increased intra and inter state migration This has led to an increase in the enrollment of students with diverse linguistics backgrounds placing more academic demands on educators Linguistic diversity presents both opportunities and challenges for educators across the educational spectrum Language ideologies profoundly shape and constrain the use of language as a resource for learning in multilingual or linguistically diverse classrooms While English has become the world language most communities remain and are becoming more and more multicultural multilingual and diverse The Handbook of Research on Teaching in Multicultural and Multilingual Contexts moves beyond the constraints of current language ideologies and enables the use of a wide range of resources from local semiotic repertoires It examines the phenomenon of language use language teaching multiculturalism and multilingualism in different learning areas giving practitioners a voice to spotlight their efforts in order to keep their teaching afloat in culturally and linguistically diverse situations Covering topics such as Indigenous languages multilingual deaf communities and intercultural competence this major reference work is an essential resource for educators of both K 12 and higher education pre service teachers educational psychologists linguists education administrators and policymakers government officials researchers and academicians Historical Dictionary of Lesotho John Aerni-Flessner, Charles Fogelman, Nthabiseng

Mokoena-Mokhali, 2023-11-30 Lesotho s history has long been defined by its enclave status within South Africa but it is a hard fought and hard won status that helps unite Basotho through the shared history of struggle against colonial rule in the region Since the end of apartheid in 1994 Lesotho s status as a separate entity has been called into question though the fierce national pride built through centuries of resistance to outside rule has mitigated against any serious discussions of incorporating Lesotho into South Africa Still the political instability and lack of a flourishing domestic economy have made life difficult for the majority of Basotho and could call into question the viability and legitimacy of the state in the eyes of its citizens if it cannot enact significant reforms in the coming decades Historical Dictionary of Lesotho Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Lesotho *IoT-WSN-DT Based Medical Systems and Nanotechnology for Smart Cancer Care* Tuan Anh Nguyen, 2025-08-01 IoT WSN DT Based Medical Systems and Nanotechnology for Smart Cancer Care explores the latest advances in nanotechnology artificial intelligence Internet of Medical Things IoMT digital twin and wireless sensor networks for real time cancer care enabling efficient decision making and treatment The book examines how data from medical nanosensors can be integrated with the technology of digital twins for cancer forecasting and monitoring providing accessible smart insights via remote and mobile

devices By combining the strengths of smart nanotechnology IoT based platforms WSN technologies and DT a powerful medical system can be developed for smart cancer care This system can help in early diagnosis targeted drug delivery real time monitoring and personalized treatment ultimately improving patient outcomes Covers how nanosensors and nanodevices can be used in cancer forecasting detection and monitoring Explores how nanomedicines and nanovaccines can be used in cancer treatment and diagnosis Explains how digital twin AI and nanotechnology can be used for the future of cancer diagnostics and treatment

**Evolution and Advances in Computing Technologies for Industry 6.0** C. Kishor Kumar Reddy, Srinath Doss, Surbhi Bhatia Khan, Abdulmajeed Alqhatani, 2024-12-19 This book provides a comprehensive exploration of Industry 6.0 which marks the convergence of intelligent systems machine learning ML deep learning and human robot collaboration HRC in various sectors It focuses on how these technologies enable businesses to harness insights from vast datasets optimize operations forecast maintenance requirements and mitigate outages In this comprehensive book the authors cover the major aspects of Industry 6.0 including the latest advances in technology new applications and the many challenges that accompany the process that is changing it This book acts as a compass guiding readers through the labyrinth of Industry 6.0 revealing the complex interactions between technologies new applications innovations and business ecosystems From a multidisciplinary perspective the book explores the far reaching impact of Industry 6.0 on the business world revealing its potential to increase productivity improve decision making and open new opportunities for development Discusses the transformative impact of Industry 6.0 driven by the convergence of artificial intelligence AI ML and the industrial internet of things IIoT in manufacturing Explores the transformative potential of HRC in modern manufacturing emphasizing the ability of HRC to boost productivity flexibility and safety Compares several service models in cloud computing with a focus on private public and community cloud deployment methods Presents information about autism spectrum disorder ASD in children and the advanced technology of convolutional neural networks used to detect autism in

children Describes the accurate diagnosis of Alzheimer's disease through integrating state of the art technologies especially deep learning Focuses on digital adaptation in India's agricultural sector especially Uttar Pradesh highlighting challenges and prospects Presents a visionary leap into Agriculture 6.0 where technology and tradition converge for sustainable farming solutions Provides the mitigation strategies for climate change over multiple locations Explores the transformative impact of recent computational intelligence advancements in vehicle surveillance and recognition particularly through CCTV analysis Focuses on the exploration and development of a supply chain network design SCND model of milk products This book will be of interest to researchers academics practitioners technology providers undergraduate and postgraduate students scholars consultants advisors and doctors It can be used by undergraduate and postgraduate students pursuing Industry 6.0 programs in computer science and engineering across the globe

The Power of Agentic AI: Redefining Human Life and Decision-Making C. Kishor Kumar Reddy, Shenson Joseph, Herat Joshi, Srinath Doss, Mariya Ouaisa, 2025-09-26 This book explores how autonomous AI systems are reshaping human decision making across various industries and society The book delves into the concept of Agentic AI AI systems that can act independently and make decisions without human intervention Unlike existing literature that speculates about superintelligent systems this book offers practical insights into how current AI systems are already transforming sectors like health care finance and law It highlights the growing impact of these technologies on professional roles and governance offering a balanced view of both the opportunities and challenges presented by AI autonomy The book's findings show that Agentic AI enhances decision making by improving efficiency accuracy and scalability However it also presents ethical concerns related to accountability transparency and the shifting nature of human responsibility in AI mediated environments It emphasizes the need for robust ethical frameworks and governance structures to ensure that AI systems align with human values By focusing on real world applications and current AI technologies the book provides actionable insights for decision makers helping businesses policymakers and technologists navigate the evolving AI landscape It offers a roadmap for understanding the present day capabilities of autonomous systems and prepares professionals for the ethical and operational challenges of integrating these technologies Readers will gain a comprehensive understanding of how Agentic AI is poised to redefine human life and decision making making it essential for anyone interested in the future of technology ethics and innovation Unlike traditional AI which typically requires human supervision or input Agentic AI introduces the concept of autonomy AI systems that can act learn and make decisions independently This paradigm shift challenges the conventional human centered approach to decision making positioning AI as a true partner in complex cognitive tasks The book also explores the ethical and societal implications of AI autonomy in ways that extend beyond typical discussions

**Status of digital agriculture in 47 sub-Saharan African countries** Food and Agriculture Organization of the United Nations, International Telecommunication Union, 2022-01-07 Sub Saharan Africa is uniquely positioned significantly increase its current agricultural productivity to lift the region's more than 400 million

people out of extreme poverty and improve the livelihood of approximately 250 million smallholder farmers and pastoralists in the region To achieve that substantive digital transformation of the agriculture sector is required through improved infrastructure and increased access to and use of digital technologies for agriculture To improve the current understanding of sub Saharan Africa s digital agriculture landscape the Food and Agriculture Organization of the United Nations FAO and the International Telecommunication Union ITU undertook this study in 47 countries The report is composed of 47 desk based country case studies against six thematic focal areas the aim of which is to present a snapshot of the status of digital agriculture in each country This is followed by highlights of the main findings of the analysis of the country profiles with suggested steps for future action The findings of the study are presented to FAO and ITU Member States as well as all relevant stakeholders with the purpose of advancing and supporting investment in digital transformation of the agricultural sector in sub Saharan Africa *Emerging Drug Delivery and Biomedical Engineering Technologies* Dimitrios

Lamprou,2023-04-06 This book details the advances in drug discovery and delivery and the present need for emerging technologies Throughout the text new micro and nanofabrication techniques are described including methods such as electrohydrodynamic processes additive manufacturing and microfluidics which have the potential to produce drug delivery systems that were not possible a few years ago This book is of great use to both entry level and experienced researchers in the field of emerging technologies for the manufacturing of drug delivery devices Features Describes technologies that are significantly enhancing the delivery of drugs and biologics Presents new data on mobile and wearable point of care testing systems Features hot topics such as electrospinning 3D printing and micro needles Focuses on additive manufacturing AM which can be used to provide customized treatment for patients Will appeal to experienced researchers and those considering entering the field of emerging technologies for the manufacturing of drug delivery devices **Exploring the**

**Advancements and Future Directions of Digital Twins in Healthcare 6.0** Dubey, Archi,Kumar Reddy, C. Kishor,Doss, Srinath,Hanafiah, Marlia Mohd,2024-07-18 The healthcare industry is increasingly complex demanding personalized treatments and efficient operational processes Traditional research methods need help to keep pace with these demands often leading to inefficiencies and suboptimal outcomes Integrating digital twin technology presents a promising solution to these challenges offering a virtual platform for modeling and simulating complex healthcare scenarios However the full potential of digital twins still needs to be explored mainly due to a lack of comprehensive guidance and practical insights for researchers and practitioners Exploring the Advancements and Future Directions of Digital Twins in Healthcare 6 0 is not just a theoretical exploration It is a practical guide that bridges the gap between theory and practice offering real world case studies best practices and insights into personalized medicine real time patient monitoring and healthcare process optimization By equipping you with the knowledge and tools needed to effectively integrate digital twins into your healthcare research and operations this book is a valuable resource for researchers academicians medical practitioners scientists and

students     Intelligent Systems and Industrial Internet of Things for Sustainable Development C. Kishor Kumar Reddy,P. R Anisha,Marlia Mohd Hanafiah,Srinath Doss,Kari Lippert,2024-05-10 The book studies emerging and sustaining technologies for applications of Industry 5.0 to develop technological solutions to address numerous real life challenges to solve sustainable development related issues It identifies limitations pitfalls and open research questions in industry 5.0 discusses real time problems and challenges with equivalent solutions with a focus on sustainable growth to develop humanization and environmentally friendly intelligent system applications It analyses applications enabled by Industry 5.0 such as healthcare supply chain smart framing remote sensing production in manufacturing and cloud manufacturing It also includes the difficulties and problems posed by the organization between robots and humans on the assembly line to maintain sustainability Addresses key challenges in implementing intelligent systems in IoT based applications including issues ranging from cost and energy efficiency to availability and quality of service Explores the technologies to allow human machine association and its impact on consumption and sustainability Provides sustainable solutions to emerging industrial problems especially in healthcare manufacturing remote sensing environmental engineering Examines need for data pre processing classification prediction Cluster Analysis Mining Multimedia Text and Web Data Advanced machine learning techniques for scientific programming in Industry Presents success stories in the form of case studies of IIoT IIoRT Big Data Intelligent Systems Deep Learning in Industry 5.0 era The text is for postgraduate students professionals and academic researchers working in the fields of computer science and information technology especially for professionals and researchers interested in the technological side of sustainable development     **Corporate Governance and Sustainable Value Creation Models** Shantha Indrajith Hikkaduwa Liyanage,2025-03-06 The contemporary issue of the Anglo American corporate value model is short termism That is the model operates in the interest of shareholders overlooking or at a cost of non shareholder stakeholders interests including society and environment The eye opening evidence is the 2008-09 global financial crisis In these circumstances this book examines how three Anglo American corporate governance jurisdictions the United Kingdom South Africa and India have recently modified their corporate value models for creating long term sustainable value The examination continues with the Anglo American corporate value models of two emerging countries also Finally the Continental European corporate German model is also analyzed The comparative analysis is useful for revisiting not only the Anglo Saxon Models in common law countries but also Continental European Models in civil law countries This book is appropriate for scholars academics students and policy makers who are interested in corporate governance models around the world     Sensor Networks for Smart Hospitals Tuan Anh Nguyen,2025-01-23 Sensor Networks for Smart Hospitals shows how the use of sensors to gather data on a patient's condition and the environment in which their care takes place can allow healthcare professionals to monitor well being and make informed decisions about treatment Written by experts in the field this book is an invaluable resource for researchers and healthcare practitioners in their drive to use

technology to improve the lives of patients Data from sensor networks via the smart hospital framework is comprised of three main layers data insights and access Medical data is collected in real time from an array of intelligent devices systems deployed within the hospital This data offers insight from the analytics or machine learning software that is accessible to healthcare staff via a smartphone or mobile device to facilitate swifter decisions and greater efficiency Describes the fundamentals of sensors biosensors and smart hospitals Explains how sensors and implanted nanodevices can be used in smart healthcare Discusses how intelligent wireless medical sensor networks can be used for healthcare in the future Companion volume to *Advanced Sensors for Smart Healthcare* *Software Engineering: Emerging Trends and Practices in System Development* Radek Silhavy,Petr Silhavy,2025-08-12 This book discovers peer reviewed research from an international research conference that unites experts in software engineering data science artificial intelligence cybernetics and informatics This book presents cutting edge methods practical case studies and foundational advances that address real world challenges across the computational spectrum Whether you seek rigorous theory proven development practices or visionary perspectives on emerging technologies this book provides a comprehensive resource for researchers practitioners and students committed to shaping the future of digital systems *Data Analytics in System Engineering* Radek Silhavy,Petr Silhavy,2024-02-23 These proceedings offer an insightful exploration of integrating data analytics in system engineering This book highlights the essential role of data in driving innovation optimizing processes and solving complex challenges in the field Targeted at industry professionals researchers and enthusiasts this book serves as a comprehensive resource providing actionable insights and showcasing transformative applications of data in engineering It is a must read for anyone keen on understanding and participating in the ongoing evolution of system engineering in our data centric world **The Science behind the COVID Pandemic and Healthcare Technology Solutions** Sasan Adibi,Abbas Rajabifard,Sheikh Mohammed Shariful Islam,Alireza Ahmadvand,2022-10-29 This book offers a timely review of modern technologies for health with a special emphasis on wireless and wearable technologies GIS tools and machine learning methods for managing the impacts of pandemics It describes new strategies for forecasting evolution of pandemics optimizing contract tracing and for detection and diagnosis of diseases among others Written by researchers and professionals with different backgrounds this book offers a extensive information and a source of inspiration for physiologists engineers IT scientists and policy makers in the health and technology sector **Cases on Leadership in Adult Education** Modise, Oitshepile MmaB,2015-07-17 Strong leadership is the cornerstone of advancement Nowhere is this more important than the field of education where students undergo training to effectively overcome obstacles and challenges whether in the classroom or in the workforce Cases on Leadership in Adult Education highlights real world examples of students inspired and invigorated to higher levels of achievement in both their professional and academic lives as well as instances of leadership gone wrong and examples of what not to do when put in charge of an organization Featuring case studies covering a wide range of disciplines this book is

a valuable resource for instructors of adult education in universities and community colleges practitioners in the education field adult students of various backgrounds and managers or leaders seeking improvement within their respective organizations This authoritative reference source features chapters on a broad scope of education and training issues including but not limited to agricultural training leadership styles lifelong learning management issues poverty reduction rehabilitation programs trends in teaching culture and vocational training      *Artificial Intelligence Trends in Systems* Radek Silhavy, 2022-07-07 This book covers themes related to artificial intelligence in systems and networks application Selected papers explore modern neural networks application optimization and hybrid and bio inspired algorithms are covered too The refereed proceedings of the Artificial Intelligence Trends in Systems part of the 11th Computer Science On line Conference 2022 CSOC 2022 conducted online in April 2022 are included in this volume      **Utilizing AI of Medical Things for**

**Healthcare Security and Sustainability** Ouaisa, Mariyam, Ouaisa, Mariya, Imad, Muhammad, Qurashi, Jameel Ahmad, Farooq, Mansoor, 2025-04-11 The integration of AI and IoT in healthcare particularly through the Internet of Medical Things IoMT is revolutionizing medical care by enhancing efficiency and personalization These technologies enable more accurate patient monitoring streamlined healthcare delivery and customized treatment plans that address individual needs With the ability to analyze vast amounts of patient data in real time AIoMT is improving diagnostics outcomes and the overall patient experience This transformation holds significant potential to reduce healthcare costs alleviate the burden on traditional systems and improve overall public health By fostering smarter healthcare practices AIoMT is helping to shape a more responsive efficient and accessible medical landscape Utilizing AI of Medical Things for Healthcare Security and Sustainability explores the transformative role of AI and IoMT in modern healthcare It delves into how AI driven technologies and smart medical devices are revolutionizing patient care through real time monitoring predictive analytics and personalized treatment plans Covering topics such as autonomous vehicles disease prediction and wearable health technology this book is an excellent resource for researchers healthcare professionals academicians technologists and more

*Industry 6.0* C Kishor Kumar Reddy, Srinath Doss, Lavanya Pamulaparty, Kari Lippert, Ruchi Doshi, 2024-10-16 What are the means to create a paradigm shift from conventional to intelligent companies Industry 6.0 Technology Practices Challenges and Applications shows how integrating Industry 6.0 technology with data creates a framework for that shift The book discusses the limitations pitfalls and open research questions in Industry 6.0 as well as the most recent advances architectures frameworks applications and novel practices methods and techniques These are vital for resolving intelligent Internet of Things issues There is a special focus on sustainable growth humanization and environmentally friendly intelligent system applications and an emphasis on the latest innovations in intelligent systems in classical machine learning deep learning Internet of Things IoT Industrial Internet of Things IIoT blockchain knowledge representation knowledge management big data and natural language processing NLP Features Presents the latest trends in the fields of intelligent

systems machine intelligence deep learning and Industrial Internet of Things for smart environments Discusses securing the mobile ad hoc network MANET by detecting the Intrusions using CSO and XGBoost model Highlights the methods of smart things in collaborative autonomous fleets and platforms for integrating applications across different business and industry domains Focuses on intelligent process manufacturing automation using robotics development of robotic appliances and smart manufacturing Covers data driven agriculture crop disease prediction drip irrigation systems pesticide and fertilizer sprinkling using the Industrial Internet of Things and water estimation systems With many contemporary articles from both scientists and practitioners working in many fields where intelligent systems and the IIoT can break new ground the text is assembled to aim at a readership that includes researchers statisticians practitioners scientists and developers

*Cybernetics Perspectives in Systems* Radek Silhavy, 2022-07-04 This book contains the refereed proceedings of the Cybernetics Perspectives in Systems session of the 11th Computer Science On line Conference 2022 CSOC 2022 which was held in April 2022 online Papers on modern cybernetics and informatics in the context of networks and systems are an important component of current research issues This volume contains an overview of recent method algorithms and designs

## Embracing the Beat of Appearance: An Emotional Symphony within **Botho University Lesotho**

In a global taken by screens and the ceaseless chatter of immediate connection, the melodic beauty and emotional symphony produced by the written word usually diminish into the back ground, eclipsed by the relentless noise and disturbances that permeate our lives.
