Representing Medieval Genders and Sexualities in Europe Elizabeth L'Estrange, Alison More, 2016-04-08

Transcending both academic disciplines and traditional categories of analysis this collection illustrates the ways genders and sexualities could be constructed subverted and transformed Focusing on areas such as literature hagiography history and art history from the Anglo Saxon period to the early sixteenth century the contributors examine the ways men and women lived negotiated and challenged prevailing conceptions of gender and sexual identity In particular their papers explore textual constructions and transformations of religious and secular masculinities and femininities visual subversions of gender roles gender and the exercise of power and the role sexuality plays in the creation of gender identity The methodologies which are used in this volume are relevant both to specialists of the Middle Ages and early modern periods and to scholars working more broadly in fields that draw on contemporary gender studies *The Wehrmacht's Last Stand* Robert M.

Citino, 2020-07-09 By 1943 the war was lost and most German officers knew it Three quarters of a century later the question persists What kept the German army going in an increasingly hopeless situation Where some historians have found explanations in the power of Hitler or the role of ideology Robert M Citino the world's leading scholar on the subject posits a more straightforward solution Bewegungskrieg the way of war cultivated by the Germans over the course of history In this gripping account of German military campaigns during the final phase of World War II Citino charts the inevitable path by which Bewegungskrieg or a war of movement inexorably led to Nazi Germany's defeat The Wehrmacht's Last Stand analyzes the German Totenritt or death ride from January 1944 with simultaneous Allied offensives at Anzio and Ukraine until May 1945 the collapse of the Wehrmacht in the field and the Soviet storming of Berlin In clear and compelling prose and bringing extensive reading of the German language literature to bear Citino focuses on the German view of these campaigns Often very different from the Allied perspective this approach allows for a more nuanced and far reaching understanding of the last

battles of the Wehrmacht than any now available With Citino's previous volumes *Death of the Wehrmacht* and *The Wehrmacht Retreats* *The Wehrmacht's Last Stand* completes a uniquely comprehensive picture of the German army's strategy, operations and performance against the Allies in World War II *A World at Arms* Gerhard L. Weinberg, 2013-07-11 In a new edition featuring a new preface *A World of Arms* remains a classic of global history Widely hailed as a masterpiece this volume remains the first history of World War II to provide a truly global account of the war that encompassed six continents Starting with the changes that restructured Europe and its colonies following the First World War Gerhard Weinberg sheds new light on every aspect of World War II Actions of the Axis, the Allies and the Neutrals are covered in every theater of the war More importantly the global nature of the war is examined with new insights into how events in one corner of the world helped affect events in often distant areas

The Hitler Conspiracies Richard J. Evans, 2020-10-01 Brilliant a 5 out of 5 masterpiece *Evening Standard* The renowned historian of the Third Reich takes on the conspiracy theories surrounding Adolf Hitler and the Nazis in a vital history book for the post truth age The idea that nothing happens by chance in history that nothing is quite what it seems to be at first sight that everything that occurs is the result of the secret machinations of malign groups of people manipulating everything from behind the scenes is as old as history itself But conspiracy theories are becoming more popular and more widespread in the twenty first century Nowhere have they become more obvious than in revisionist accounts of the history of the Third Reich Long discredited conspiracy theories have taken on a new lease of life given credence by claims of freshly discovered evidence and novel angles of investigation This book takes five widely discussed claims involving Hitler and the Nazis and subjects them to forensic scrutiny that the Jews were conspiring to undermine civilization as outlined in *The Protocols of the Elders of Zion* that the German army was stabbed in the back by socialists and Jews in 1918 that the Nazis burned down the Reichstag in order to seize power that Rudolf Hess' flight to the UK in 1941 was sanctioned by Hitler and conveyed peace terms suppressed by Churchill and that Hitler escaped the bunker in 1945 and fled to South America In doing so it teases out some surprising features these and other conspiracy theories have in common This is a history book but it is a history book for the age of post truth and alternative facts a book for our own troubled times

The Interpreter: Memoirs Eugen Dollmann, 1967 *A Philosophical Commentary on the Politics of Aristotle* Peter L. Phillips Simpson, 2000-11-09 *The Politics* Aristotle's classic work on the nature of political community has been a touchstone of Western debates about society and government In this volume Peter Simpson presents a complete philosophical commentary on the *Politics* an analysis of the logical structure of the entire text and each of its constitutive arguments and conclusions Unlike other contemporary works on the *Politics* Simpson's philosophical commentary is not save incidentally a discussion of philological and historical questions a speculative elaboration of Aristotle's arguments or a comparison of the philosopher's ideas with those of other ancient and modern theorists Such treatments argues Simpson must be grounded in a thorough understanding of the philosophical content of the work a point that

underscores the need for this thorough and accurate analysis Keyed to the ancient Greek text as well as to Simpson's own innovative translation of it UNC Press 1997 this book will stand as a valuable commentary on the philosophical argument in the Politics and will serve as a sound basis for future study of Aristotle's political thought **Berkeley Technology Law Journal**, 1996 *Consumer Reports 2000 Buying Guide* Consumer Reports, Consumer Reports Books Editors, 1999-11 From cars and cell phones to washing machines this book presents the most objective product information available with Consumer Reports ratings repair histories product recommendations and buying advice **The Prologue and The Knights Tales** Geoffrey Chaucer, 1898 **Cumulated Index Medicus**, 1977 **The Engineer**, 1878 Official Gazette of the United States Patent and Trademark Office United States.
