McFadden, John T. McFadden, 2014-03-15 Drawing on medicine social science philosophy and religion to provide a broad perspective on aging Aging Together offers a vision of relationships filled with love joy and hope in the face of a condition that all too often elicits anxiety hopelessness and despair Successful Aging as a Contemporary Obsession Sarah

Lamb, 2017-05-22 In recent decades the North American public has pursued an inspirational vision of successful aging striving through medical technique and individual effort to eradicate the declines vulnerabilities and dependencies previously commonly associated with old age On the face of it this bold new vision of successful healthy and active aging is highly appealing But it also rests on a deep cultural discomfort with aging and being old The contributors to *Successful Aging as a Contemporary Obsession* explore how the successful aging movement is playing out across five continents Their chapters investigate a variety of people including Catholic nuns in the United States Hindu ashram dwellers older American women seeking plastic surgery aging African American lesbians and gay men in the District of Columbia Chicago home health care workers and their aging clients Mexican men foregoing Viagra dementia and Alzheimer sufferers in the United States and Brazil and aging policies in Denmark Poland India China Japan and Uganda This book offers a fresh look at a major cultural and public health movement of our time questioning what has become for many a taken for granted goal aging in a way that almost denies aging itself **Sustaining Persons, Grieving Losses** Dianne Crowther, 2017-01-19 Dementia presents a

significant social issue in a hyper cognitive culture where stigma relational neglect and isolation still accompany forgetfulness This raises serious theological ecclesiological and pastoral questions calling for a Christian response To fight against a malignant social positioning of anyone as an empty shell is crucial nonetheless there is another pressing reality the reality of ongoing loss Often the focus is on one or the other side affirming personhood or acknowledging loss and grief Spiritual caregiving and Christian pastoral caregiving are uniquely placed to offer both sustaining relationship and grief support to both caregivers and persons with dementia This pastoral approach emerges from cultural scholarship rigorous on the ground research and theological reflection on God's purposes in responding to persons in and beyond the Christian community Christian communities are called to be places of agape love compassion and hospitality We individually and corporately are called to care to love honor value comfort and sustain one another and one another includes those who travel the road of forgetting and those who travel with them This fresh pastoral approach offers theologically and culturally informed practical ways of sustaining persons in the midst of their losses throughout the dementia journey *Dialogue and Dementia* Robert W. Schrauf, Nicole Müller, 2013-11-20 This volume takes the positive view that conversation between

persons with dementia and their interlocutors is a privileged site for ongoing cognitive engagement The book aims to identify and describe specific linguistic devices or strategies at the level of turn by turn talk that promote and extend conversation and to explore real world engagements that reflect these strategies Final reflections tie these linguistic strategies and practices to wider issues of the self and agency in persons with dementia Thematically the volume fosters an integrated perspective on communication and cognition in terms of which communicative resources are recognized as cognitive resources and communicative interaction is treated as reflecting cognitive engagement This reflects perspectives in cognitive anthropology and cognitive science that regard human cognitive activity as distributed and culturally rooted This volume is intended for academic researchers and advanced students in applied linguistics linguistic and medical anthropology nursing and social gerontology and practice professionals in speech language pathology and geropsychology **Do Not Forsake**
