and Composition G H Armstrong,G. H. Armstrong,2023-08-10 It is not considered necessary to offer an apology for the
publication of a work on English grammar and composition for the Public Schools of Ontario The plan of the work is inductive
and practical and the author has endeavored to make the book a useful one for the purposes of teaching Every principle is
presented through the observation of examples of good English The study of grammar aids the student to master his mother
tongue but its chief function is to secure mental discipline For the development of the intellectual powers the capable teacher
well furnished with rational methods will find this study superior to all others It is a study in recognizing similarities in
distinguishing differences in making abstractions in forming generalizations The object of Parts I IV of this book is to
contribute something to the science of elementary English grammar Part V treats of composition The usual exercises in
completing halfbuilt sentences in straightening out wrecks of sentences in combining simple sentences into complex
sentences in expanding phrases into clauses etc will not be found therein They have done quite enough towards fostering
stupidity in our schools The art of expression is acquired through steady practice therefore pupils should write compositions
not once a week but during part of every period about things which they understand They should be taught good form in
expression and trained to correct their own exercises
