Reconnecting Reading and Writing Alice S. Horning, Elizabeth W. Kraemer, 2013-09-06 Reconnecting Reading and Writing explores the ways in which reading can and should have a strong role in the teaching of writing in college Reconnecting Reading and Writing draws on broad perspectives from history and international work to show how and why reading should be reunited with writing in college and high school classrooms It presents an overview of relevant research on reading and how it can best be used to support and enhance writing instruction *American Democracy in Peril: Eight Challenges to America's Future, 7th Edition* William E. Hudson, 2012-07-13 American Democracy in Peril encapsulates the tumultuous state of American politics By introducing the history of democratic theory in terms of four models of democracy Hudson provides readers with a set of criteria against which to evaluate the challenges discussed later This provocative book offers a structured yet critical examination of the American political system designed to stimulate students to consider how the facts they learn about American politics relate to democratic ideals This new edition incorporates the Trump Presidency and the polarization that has accompanied his leadership Provided by Publisher *Teaching Writing in the Age of Catastrophic Climate Change* Justin Everett, Russell Mayo, 2024-11-25 Catastrophic storms searing heat waves crumbling waterfronts warming oceans air fouling forest fires and mass extinction have become facts of life Under these conditions it is difficult to imagine that the global industrial civilization will continue in its present form This requires us to reconsider the subject of ecocomposition from a new perspective What does it mean to teach college writing in the face of this sobering reality The introduction reviews the history of ecocomposition and reframes it in light of the apocalyptic turn in climate discourse over the last quarter century as well as the role that ecocomposition theory can play in framing these discussions Teaching Writing in the Age of Catastrophic Climate Change is organized into four sections The first section considers the environmental narrative from the viewpoint of climate justice while the second reframes pedagogies of place in light of the climate catastrophe The third section examines the intersections of writing studies and the natural sciences while the fourth section entertains the personal and emotional dimensions of teaching ecocomposition within the framework of catastrophic climate change If we have been successful these chapters provide a starting place for having sobering discussions in our classrooms and considering what ecocomposition means in this unsettling age Teaching Transformations 2010 Mohammad H.
