AIA Guide to New York City Norval White, Elliot Willensky, Fran Leadon, 2010-06-14 Hailed as extraordinarily learned New York Times blithe in spirit and unerring in vision New York Magazine and the definitive record of New York's architectural heritage Municipal Art Society Norval White and Elliot Willensky's book is an essential reference for everyone with an interest in architecture and those who simply want to know more about New York City First published in 1968 the AIA Guide to New York City has long been the definitive guide to the city's architecture Moving through all five boroughs neighborhood by neighborhood it offers

the most complete overview of New York's significant places past and present. The Fifth Edition continues to include places of historical importance including extensive coverage of the World Trade Center site while also taking full account of the construction boom of the past 10 years, a boom that has given rise to an unprecedented number of new buildings by such architects as Frank Gehry, Norman Foster, and Renzo Piano. All of the buildings included in the Fourth Edition have been revisited and rephotographed, and much of the commentary has been rewritten, and coverage of the outer boroughs, particularly Brooklyn, has been expanded. Famed skyscrapers and historic landmarks are detailed, but so too are firehouses, parks, churches, parking garages, monuments, and bridges. Boasting more than 3000 new photographs, 100 enhanced maps, and thousands of short and spirited entries, the guide is arranged geographically by borough, with each borough divided into sectors and then into neighborhood. Extensive commentaries describe the character of the divisions. Knowledgeable, playful, and beautifully illustrated, here is the ultimate guided tour of New York's architectural treasures. Acclaim for earlier editions of the AIA Guide to New York City: An extraordinarily learned, personable exegesis of our metropolis. No other American or, for that matter, world city can boast so definitive a one-volume guide to its built environment. Philip Lopate, *New York Times*. Blithe in spirit and unerring in vision. *New York Magazine*. A definitive record of New York's architectural heritage, witty and helpful, pocketful, which serves as arbiter of architects, Baedeker for boulevardiers, catalog for the curious, primer for preservationists, and sourcebook to students. For all who seek to know of New York, it is here. No home should be without a copy. *Municipal Art Society*. There are two reasons the guide has entered the pantheon of New York books. One is its encyclopedic nature, and the other is its inimitable style: smart, vivid, funny, and opinionated. As the architectural historian Christopher Gray once summed it up in pithy *W* *W* fashion: Constance Rosenblum, *New York Times*. A book for architectural gourmards and gastronomic gourmets. *The Village Voice*. Popular Photography, 2008-10. Promoting Civic Engagement Through Art Education, Flávia Bastos, Doug Blandy, 2024-10-25. This textbook equips students and educators committed to understanding how art and creative practice work as powerful communicative tools and have a substantial role in advancing civic participation. Alongside promoting educational practices with learners' civic engagement in mind, this book is a call to action, inviting creative educators to explore the potential of art for developing critical perspectives, articulating voices, and diverse points of view, and engaging in dialogue across difference. Chapters assist students and educators in understanding critical concepts ranging from the protections afforded art under the constitution to the role of civic institutions such as museums, community arts centers, and schools in advancing civic participation. They also present the relationship between art education and civic engagement using watershed political moments such as voter suppression initiatives, xenophobic reactions to the COVID-19 pandemic, and widespread national Black Lives Matter protests. Readers are guided throughout with a series of key questions at the onset of each chapter and encouraged to investigate further the issues discussed through exploration of the many resources embedded in each chapter. Coursework and participatory learning experiences

that orient future and current art educators to the relationship of the arts and culture to democracy are also featured This book will be ideal for students in art education in both upper division undergraduate and graduate levels with cross curricular appeal for students of political science social studies sociology public history public anthropology heritage studies and public humanities As well as this it will be a must read for educators who are asked to respond to challenges within the political sphere and how these political challenges are influencing educational environments Department of Agriculture of Oregon Bulletin ,1932 Issue of Dec 1954 and beginning with 1962 the issue for Dec of even numbered years are the Biennial report of the Oregon State Dept of Agriculture **Emotion by Design** Greg Hoffman,2022-04-07 The marketing genius behind Nike Greg Hoffman has inspired me tremendously Steven Bartlett author of Happy Sexy Millionaire How did Nike go from being a small sneaker brand to the world s most revered company Why do its campaigns from Just do it to the famous Nike swoosh capture the imaginations of millions worldwide And what can any founder or marketer learn from them Greg Hoffman joined Nike as 22 year old design intern Over the next thirty years he would help craft some of the most iconic campaigns in history for Ronaldo and Serena Olympic Games and World Cup finals Now he unveils a transformative method that will make any brand more creative emotion by design Great story amazing career so inspirational I couldn t put it down Chris Evans The ultimate playbook to unleash creativity in any team Jake Humphrey author of High Performance An unforgettable account of a man and a business that never had to try to be someone else s idea of cool because they had already defined it themselves Rory Sutherland Vice Chairman of Ogilvy and author of Alchemy Brilliant Hoffman draws on a lifetime of experience at Nike to reveal how any team can make brand connections stronger Nir Eyal author of Hooked This book made me smile in my soul Mary Portas Remarkable A distinctive framework that will help marketers and creatives connect with their audiences like never before Jonah Berger author of Contagious *Unmasked* Andy Ngo,2021-02-02 In this 1 national bestseller a journalist who s been attacked by Antifa writes a deeply researched and reported account of the group s history and tactics When Andy Ngo was attacked in the streets by Antifa in the summer of 2019 most people assumed it was an isolated incident But those who d been following Ngo s reporting in outlets like the New York Post and Quillette knew that the attack was only the latest in a long line of crimes perpetrated by Antifa In *Unmasked* Andy Ngo tells the story of this violent extremist movement from the very beginning He includes interviews with former followers of the group people who ve been attacked by them and incorporates stories from his own life This book contains a trove of documents obtained by the author published for the first time ever *How Places Make Us* Japonica Brown-Saracino,2018 Maybe we ve had enough of studies of gay men and urban centers tracing out the similarities from one place to the next Japonica Brown Saracino bucks the trend giving us the first in depth study of lesbians and bisexual queer women more generally showing how four contrasting communal cultures have shaped their identity Individual lesbian residents shape the culture of sexual identity they embrace based at the same time on the prevailing culture in the city they inhabit And the consequence is that the same

Fusco, 2025-01-10

How to Combat the Racial Radicalization of Education Vol I This two volume guidebook is essentially an encyclopedia illustrating the problems revolving around the racial agenda that s indoctrinating K 12 students who are being radicalized by promoting Critical Race Theory CRT with all of its various clones using different terms and phrases The issue with parents who are revolting against is how it is being done indoctrination and not choice and not age appropriate in the lower grades The reason for two volumes is because most books relating to this issue go into the topic without giving the necessary background stagecraft to really know what s involved Too often authors assume the reader is familiar with the background information and that is a dangerous assumption to make Vol I provides the definitions of so many words and phrases because Critical Race Theory is a concept driven by twisted and confusing language much of it with new words such as intersectionality making it sound mysterious and even important Yet it is a simple problem to resolve with choice and options but the racial advocates primarily white suburban educators do not want it resolved believing that every single student K 12 must be radicalized and racialized by the racial agenda without providing any evidence of the need for its infusion in K 12 schooling The districts promoting it are even denying that CRT is being promoted Therefore it s the words being used that are the clue whether or not CRT it is being taught For example the Superintendent of Schools of the trophy school did an unpresented action by purchasing a copy of How to be an AntiRacist for every teacher to use no further evidence is needed Anyone can be radicalized it occurs when someone starts to believe or support extreme views and then in some cases they become willing or unwilling radicalized activists Even the Connecticut solution a deep blue state arrived at a very amicable solution It recognized that it should not be done through indoctrination but with choice and only at the high school level In addition it s a political issue with Progressive Demo crats and the Biden White House advocating for its use in schools and Republicans opposed to it For example the term slavery is interpreted to mean black slavery only when in fact white slavery started sooner it was harsher because they were used in the dangerous mining and timber work and it was cheaper to buy a white slave rather than a black slave Vol II Volume I set the center stage for the radicalization drama to take place for Vol II to provide the nitty gritty of the racial agenda that creates conflict chaos anger and makes schools unsafe for staff and students This is reason enough why it does not belong in schools What s critical to understand is that this extreme indoctrination has absolutely nothing to do with improving academic skills and knowledge and furthermore it violates U S Supreme Court decision 1968 Epperson vs Arkansas that prohibits the teaching of only one dogma What s even more interesting is that the districts promoting the racial dogma deny that they are doing so In psychology denialism is a person s

choice to deny reality as a way to avoid a psychologically uncomfortable truth more so for others when it involves the racial agenda. The options available to combat the radicalization are then provided. To make matters far worse is that the time and attention being given to this agenda has the so-called safe school plans collecting dust causing the publication of *Does Your Child Attend a Safe School?* No A Manual for Parents and Policymakers that provides 53 reasons why schools doing the racial agenda are not safe. Additionally, reading and math scores have been in a steady decline with 30-35 million students scoring below proficiency. Can it be any worse?
