Critical Lapses in Federal Aviation Administration's Safety Oversight of Airlines: Abuses of Regulatory ¿Partnership¿ Programs¿ James Oberstar, 2009-12. Hearing to review the results of an oversight investigation. Two FAA Aviation Safety Inspectors have provided evidence raising serious questions of conduct violating the Federal Aviation Regulations FARs in the inspection and maintenance program of Southwest Airlines. SWA FAA employees have engaged in conduct which constitutes a violation of Federal law, rule or regulation, gross mismanagement, an abuse of authority and a substantial damage to public safety. The Maintenance Inspector for SWA knowingly allowed the airline to operate in March 2007 and possibly beyond and well after the inspection deadlines on a mandatory FAA Airworthiness Directive. There may be a pattern of regulatory abuse and that these regulatory lapses may be more widespread.
