The Way of the Sufi. W Idries Shah,1974 Idries Shah Documentation ,1973 The Hidden Revelation Morson Livingston,2015-07-10 This book The Hidden Revelation started out because of my search for knowledge and my in depth studies of various religions I realized that we are more alike than we are different through that search I realized that the major religions of the world have more similarities than differences yet we think we are so different from each other Various parts of the world practices various religions and spiritual teachings and at the core the very message some traditions and some practices are one and the same Then why do we fight in the name of religion Why do we kill in the name of religion Why do we look down at some look up at some and don t look at some at all Why do we discriminate and think we are better The basis for this book though not all encompassing seeks to highlight how the undertone of religions in the world are the same How at the core we are all seeking the same things in life which is peace love harmony contentment happiness and a connection to a power bigger than and greater than anyone of us This book shows how no matter what religion we belong too yes there are differences but the similarities far outweighs them So the question arises again Why do we fight why do we hate If we are all so alike we should be living in harmony we should be at peace we should be happy the beauty is we can all have that We just need to put our minor differences aside and connect at a heart level at a spiritual level and see God in each other Read the book and you would journey into a world where it is somewhat of a Utopia but we need that in order to see the big picture and to understand love in the Universe The settings used to describe various religions and practices also takes you on a travel and you get to picture parts of the world you may have on your bucket list Even some world class travelers who have visited some of these places might also be able to see it from another perspective If anything at all you would find at least one nugget to help improve your life and your perspective Spread love and unity

The Boundaries of Afghans' Political Imagination Jolanta Sierakowska-Dyndylo,2014-08-11 In this book The Boundaries of Afghans Political Imagination the author seeks an answer to the question of how tradition specifically its normative axiological aspects shapes the political attitudes and actions of the Afghans The author points to two different

concepts of social order which are moulded by the Pashtunwali on the one hand a tribal code which is part of Pashto language tradition and on the other hand by Sufism the religious and philosophical current in Islam expressed mainly in the Dari Persian language The two systems offer a different hierarchy of values and organize social reality by referring to two different models of order the circle and the pyramid While making an in depth analysis of the topic the author asserts that the social organization of the Pashtuns is based on the principle of representation and consensus Tribalism is shaped in the structure of a circle in which a group is the fundamental category Where tribal structure no longer performs its regulatory and organizational functions the pattern of social order is offered by the Sufi Brotherhoods which had long been very popular and powerful in this part of Asia The hierarchical organization of Sufism based on a disciple master relationship and the principle of authoritarianism gradually established the structure of the pyramid as a model of social order and also of political order Religious Sufi Brotherhoods became the most accessible leadership pattern besides the tribal one to be fixed in the Afghans social imagination This analysis from the perspective of sociocultural and political anthropology will be indispensable for those interested in Afghan and Islamic societies
