University in Europe: Volume 1, Universities in the Middle Ages Hilde de Ridder-Symoens,1991-11-07 This the first in the series is also the first volume on the medieval University as a whole to be published in over a century It provides a synthesis of the intellectual social political and religious life of the early University and gives serious attention to the development of classroom studies and how they changed with the coming of the Renaissance and the Reformation Following the first stirrings of the University in the thirteenth century the evolution of the University is traced from the original Corporation of masters and Scholars through the early development of the colleges The second half of the book focuses on the century from the 1440s to 1540s which saw the flowering of the University under Tudor patronage In the decades

preceding the Reformation many colleges were founded the teaching structures reorganised and the curriculum made more humanistic The place of Cambridge at the forefront of northern European universities was eventually assured when Henry VIII founded Trinity College in 1546 in the face of changes and difficulties experienced during the course of the Reformation

Readings in Medieval History, Volume II Patrick Geary, 2016-04-01 Patrick J Geary's highly acclaimed collection of source materials on the medieval period is well known for offering an excellent selection of substantial excerpts or whole documents wherever possible from the most widely studied historical texts This much anticipated fifth edition features a larger format as well as enlarged type to make the collection more reader friendly Study questions have been added at the end of each section to help students focus on key points in the text Volume II includes new material on the Black Death as well as new readings on Western Europe and the Mongols A color photo section has been added introducing students to fascinating medieval art such as the two earliest images of Joan of Arc and the Sachsenspiegel The Image of the Black in Western Art David

Bindman, 2010 A pioneering work in the field of art history The Image of the Black in Western Art is a comprehensive series of ten books which offers a lavishly illustrated history of the representations of people of African descent from antiquity to the present Each book includes a series of essays by some of the most distinguished names in art history Ranging from images of Pharaohs created by unknown hands almost 3 500 years ago to the works of the great masters of European and American art such as Bosch Durer Mantegna Rembrandt Rubens Watteau Hogarth Copley and Goya to stunning new media creations by contemporary black artists these books are generously illustrated with beautiful moving and often little known images of black people Black figures queens and slaves saints and soldiers priests and prisoners dancers and athletes children and gods are central to the visual imagination of Western civilization Written in accessible language the extensive and insightful commentaries on the illustrations by distinguished art historians make this series invaluable for the general reader and the specialist alike **Resumé**
