Accidental Presidents Jared Cohen,2020-01-28 This New York Times bestselling deep dive into the terms of eight former presidents is chock full of political hijinks and d j vu Vanity Fair and provides a fascinating look at the men who came to the office without being elected to it showing how each affected the nation and world The strength and prestige of the American presidency has waxed and waned since George Washington Eight men have succeeded to the presidency when the incumbent died in office In one way or another they vastly changed our history Only Theodore Roosevelt would have been elected in his own right Only TR Truman Coolidge and LBJ were re elected John Tyler succeeded William Henry Harrison who died 30 days into his term He was kicked out of his party and became the first president threatened with impeachment Millard Fillmore succeeded esteemed General Zachary Taylor He immediately sacked the entire cabinet and delayed an inevitable Civil War by standing with Henry Clay s compromise of 1850 Andrew Johnson who succeeded our greatest president sided with remnants of the Confederacy in Reconstruction Chester Arthur the embodiment of the spoils system was so reviled as James Garfield s successor that he had to defend himself against plotting Garfield s assassination but he reformed the civil service Theodore Roosevelt broke up the trusts Calvin Coolidge silently cooled down the Harding scandals and preserved the White House for the Republican Herbert Hoover and the Great Depression Harry Truman surprised everybody when he succeeded the great FDR and proved an able and accomplished president Lyndon B Johnson was named to deliver Texas electorally He led the nation forward on Civil Rights but failed on Vietnam *Accidental Presidents* shows that history unfolds in death as well as in life The Wall Street Journal and adds immeasurably to our understanding of the power and limits of the American presidency in critical times

The Great Experiment Strobe Talbott,2009-03-17 Acclaimed journalist Talbott tells the story of humankind s struggle to band together for protection and profit and the urgent need for a new birth of American leadership to meet the looming threats of terror climate change and nuclear catastrophe *A Late Encounter with the Civil War* Michael Kreyling,2014-02 In *A Late Encounter with the Civil War* Michael Kreyling confronts the changing nature of our relationship to the anniversary of the war that nearly split the United States When significant anniversaries arrive in the histories of groups such as families businesses or nations their members set aside time to formally remember their shared past This phenomenon this social or collective memory reveals as much about a group s sense of place in the present as it does about the events of the past So it is with the Civil War As a nation we have formally remembered two Civil War

anniversaries the 50th and 100th We are now in the complicated process of remembering the war for a third time Kreyling reminds us that we were a different we for each of the earlier commemorations and that we are certainly different now and not only because the president in office for the 150th anniversary represents a member of the race for whose emancipation from slavery the war was waged These essays explore the conscious and unconscious mechanisms by which each era has staged written and thought about the meaning of the Civil War Kreyling engages the not quite conscious agendas at work in the rituals of remembering through fiction film graphic novels and other forms of expression Each cultural example wrestles with the current burden of remembering What are we attempting to do with a memory that to many seems irrelevant or so far in the past as to be almost irretrievable

An American History Lesson and a Wake up Call for America Jack B. Walters, 2013-07-25 These articles and book reports have been written in the hope that readers could believe as I do that the world including our country is in great danger for multiple of reasons 1 The spread of adherents to Islam threaten to engulf all persons of different faiths They are winning through violence but also just by having more babies than every other culture The leaders of Europe and America refuse to accept how evil this belief system is and how they have only one agenda and that is to have dominion over all nations 2 Our Constitution has been destroyed by the administration of President Obama and the Supreme Court He does whatever he wants regardless of the Congress The Court extended the commerce authority to allow the government to force citizens to purchase a service and allowed the corporations to spend anything they want to affect the outcome of elections 3 We are drowning in debt but continue to add costly programs making it even worse without making any attempt to reduce the strain Military adventures continue without end Government handouts to the so called needy have created a permanent underclass of people being supported while not required to put forth effort 4 The government refuses to take the steps needed to become energy efficient which could be accomplished easily thereby freeing us from OPEC For those of you who don't remember in the 50s we exported oil
