Andy Goldsworthy Touching Nature Special Edition Sculptors:

Andy Goldsworthy William Malpas, 1999 **Jasper Johns** L. M. Poole, 2007 Jasper Johns is one of the most poignant and sensual of postwar artists whose works command some of the highest prices for a living artist He is the creator of the famous flags targets ale cans numbers and letters series Here the author traces Johns development from the Rauschenberg era to the multi part Season paintings of the 1980s **Vincent Van Gogh** Stuart Morris, 2008 VINCENT VAN GOGH Few artists command such fervent devotion amongst art lovers and such high prices in the salerooms of the art world Love him or hate him Vincent van Gogh is one of a handful of artists who is now a cultural event Stuart Morris's study concentrates on the paintings first and employs van Gogh's eloquent letters as an aesthetic reference point Much of the book is concerned with metacriticism the way van Gogh has been critically received over the years Vincent van Gogh is one of the most celebrated of painters It's a bit of a mystery The mystery or irony is that his paintings have commanded the highest prices in the auction rooms of the contemporary art world 88 million dollars 53 million dollars and so on yet he only managed to sell one painting during his lifetime and he lived in poverty with financial support from his brother Theo Why is Vincent van Gogh so popular His legend has developed relatively rapidly His art is loved by the critics and public The crazy prices paid for single oil paintings are the manifestations of the fervour that van Gogh seems to generate He is one of the handful of painters who cause great excitement every time exhibitions of his work are put on One thinks also of Claude Monet Leonardo da Vinci Michelangelo Buonarroti and Pablo Picasso These are artists that the public go mad for so that when they are exhibited there are huge queues trailing around the block The 1990 centenary celebrations of poor Vincent showed how much he is exalted There were films about him discussions and conferences TV documentaries magazine articles reviews letters and much merchandize was sold to the great glee of the manufacturers posters tea towels calendars mugs souvenirs of all kinds What would the dishevelled obsessive man who painted those small canvases in the years up to 1890 in Southern France make of the amazing fuss that now surrounds his work What would van Gogh think of just one of his paintings being bought for 88 million dollars It is a huge sum even in today's expensive world You could build a hospital or two with the money Imagine it Did Vincent know that when he painted those blue irises on that small standard size canvas that it would one day be worth millions of dollars I shall count myself very happy if I can manage to work enough to earn my living for it worries me a lot when I think that I have done so many pictures and drawings without ever selling one Like the workers he depicted in numerous images Vincent van Gogh himself worked very hard to improve his art With a dogged determination van Gogh copied the Old Masters as well as Japanese prints His determined self education and self improvement paid off resulting in more than 800 paintings in about 8 years The years of van Gogh's art are relatively few nearly all of the important works were made in the decade 1880-90 Hence his paintings are credited in art history books with the month and sometimes the day as well as the year of production For most artists 1889 would suffice For van Gogh the credit is October 1889 Producing

800 paintings in 8 years is an average of a hundred per year or one every three and a half days More likely van Gogh would have worked on a number at the same time or within a short space of time *Sculpture* ,1998 **Frank Stella** James Pearson,2007 A new critical survey of the celebrated New York abstract painter Stella achieved success early on in his career with his Black Paintings of the late 1950s In the 60s his colourful Protractor series and geometric shaped canvases became some of the most distinctive manifestations of postwar and Minimalist art In the 1970s Stella went maximalist producing multi media works often using lumps of aluminium and steel which were vivaciously and complexly three dimensional A new special edition completely rewritten and many more illustrations Land Art in the U.S.A. William Malpas,2008 A study of contemporary art looking at all of the major artists in America *The British National Bibliography* Arthur James Wells,2000

Eric Gill Anthony Hoyland,2010 A new study of the provocative British artist Gill fused eroticism and mysticism in clear direct and fluid graphic lines which upset parts of the establishment a couple are shown in one print making love while being blessed by the hand of God in another a nude Mary Magdalene embraces Christ on the Cross Hoyland explores the relationship between the spiritual and the sensual in Gill s many prints and drawings including the Song of Songs woodcuts

BBC Wildlife ,1988 **Art Journal** ,1960 *ARTnews* ,2003 **Earthworks And Beyond** John Beardsley,2006-06 This volume now includes the most recent and most interesting efforts by artists often in collaboration with architects and city planners to transform ravaged landscapes and desolate cityscapes into pleasure giving parks and artworks After an introduction tracing the historical roots of art in the landscape the opening chapter deals with such innovative artists as Robert Smithson Nancy Holt and Christo who in the 1960s began to free their art from the confines of tradition by constructing monumental sculptures in the environment The following chapters discuss their predecessors peers and successors including Constantin Brancusi James Turrell and many others The final three chapters explore the increasing involvement of artists in land reclamation and urban design featuring projects by Mel Chin Maya Lin Martin Puryear and others *Restoring Nature's Place* Jean-Marc Daigle,Donna J. Havinga,Ecological Outlook Consulting,Ontario Parks Association,1996 *The Art of Richard Long* William Malpas,2007 A critical study of the work of British artist Richard Long

Colourfield Painting Laura Garrard,2007 Studie over de variant binnen de abstract expressionistische schilderkunst in de Verenigde Staten die colorfield painting genoemd wordt *House & Garden* ,1999 Artbibliographies Modern ,2004

PhotoInfo ,1990 **Art and the Natural Environment** ,1994 Exploring how artists can bring environmental issues into focus and increase awareness of natural space through artistic interventions this issue includes Mierle Laderman Ukeles work as artist in residence with the New York City Department of Sanitation Wolfgang Laib s characteristic pollen and beeswax installations the special ecological garden created by the Liss Ard Foundation in Southern Ireland which includes James Turrell s Sky Garden Ian Hamilton Finlay s use of historical garden forms at Little Sparta in Scotland and a visual and critical presentation of the TICKON project in Denmark where artists including Alan Sonfist Nils Udo Andy Goldsworthy
