Medieval and Early Modern Europe Louise Nyholm Kallestrup,Raisa Maria Toivo,2017-02-04 This book breaks with three common scholarly barriers of periodization discipline and geography in its exploration of the related themes of heresy magic and witchcraft It sets aside constructed chronological boundaries and in doing so aims to achieve a clearer picture of what went before as well as what came after Thus the volume demonstrates continuity as well as change in the concepts and understandings of magic heresy and witchcraft In addition the geographical pattern of similarities and diversities suggests a comparative approach transcending confessional as well as national borders Throughout the medieval and early modern period the orthodoxy of the Christian Church was continuously contested The challenge of heterodoxy especially as expressed in various kinds of heresy magic and witchcraft was constantly present during the period 1200 1650 Neither contesters nor followers of orthodoxy were homogeneous groups or fractions They themselves and their ideas changed from one century to the next from region to region even from city to city but within a common framework of interpretation This collection of essays focuses on this complex **Magic, Memory and Natural Philosophy in the Sixteenth and**

Seventeenth Centuries Stephen Clucas,2024-10-28 This collection of Stephen Clucas s articles addresses the complex

interactions between religion natural philosophy and magic in sixteenth and seventeenth century Europe The essays on the Elizabethan mathematician and magus John Dee show that the angelic conversations of John Dee owed a significant debt to medieval magical traditions and how Dee s attempts to communicate with spirits were used to serve specific religious agendas in the mid seventeenth century The essays devoted to Giordano Bruno offer a reappraisal of the magical orientation of the Italian philosopher s mnemotechnical and Lullist writings of the 1580s and 90s and show his influence on early seventeenth century English understandings of memory and intellection Next come three studies on the atomistic or corpuscularian natural philosophy of the Northumberland and Cavendish circles arguing that there was a distinct English corpuscularian tradition prior to the Gassendian influence in the 1640s and 50s Finally two essays on the seventeenth century Intelligencer Samuel Hartlib and his correspondents shows how religion alchemy and natural philosophy interacted during the Puritan Revolution
