Critical Poetics of Feminist Refusals Federica Buetti, 2022-12-07 *Critical Poetics of Feminist Refusals* renders a vivid portrait of the intergenerational and intersectional dialogue between influential feminist writers on how to say no to the conditions of oppression exclusion and exploitation imposed by patriarchal and systemically racist capitalist societies The book provides today's readers and writers access to the powerful inventory of concepts and techniques that two generations of feminists have assembled for refusing domination and constituting fugitive forms of sociability and writing Drawing on examples from feminist thinkers Audre Lorde Carla Lonzi Hélène Cixous Hortense Spillers Alexis Pauline Gumbs Anne Boyer and Simone White the book focuses on how the power dynamics of recognition tie the uses of language to the material conditions of discrimination in everyday life

Diseases of the Head Matt Rosen, 2020 *Diseases of the Head* is an anthology of essays from contemporary philosophers artists and writers working at the crossroads of speculative philosophy and speculative horror At once a compendium of multivocal endeavors a breviary of supposedly illicit ponderings and a travelogue of philosophical exploration this collection centers itself on the place at which philosophy and horror meet Employing rigorous analysis incisive experimentation and novel invention this anthology asks about the use that speculation can make of horror and horror of speculation about whether philosophy is fictional or fiction philosophical and about the relationship between horror the exigencies of our world and time and the future developments that may await us in philosophy itself From philosophers working on horrific themes to horror writers influenced by heresies in the wake of post Kantianism to artists engaged in projects that address monstrosity and alienation *Diseases of the Head* aims at nothing less than a speculative coup d'état Refusing both total negation and absolute affirmation refusing to deny everything or account for everything refusing the posture of critique and the posture of all encompassing unification this collection of essays aims at exposition and construction analysis and creation it desires to fight for something but not everything and not nothing And it desires most of all to speak from the position of its own insufficiency its own partiality its own underdeterminacy which is

always indicative of the practice of thinking of speculation Considering themes of anonymity otherness and alterity the gothic extinction and the world without us the end times the apocalypse the ancient and the world before us and the uncanny or unheimlich among other motifs this anthology seeks to articulate the cutting edge which can be found at the intersection of speculative philosophy and speculative horror
