The Effective Protagonist in the Nineteenth-Century British Novel Dr Terence Dawson,2013-04-28 The Effective Protagonist in the Nineteenth Century British Novel is an experiment in post Jungian literary criticism and methodology Its primary aim is to challenge current views about the correlation between narrative structure gender and the governing psychological dilemma in four nineteenth century British novels The overarching argument is that the opening situation in a novel represents an implicit challenge facing not the obvious hero heroine but the individual that Terence Dawson defines as the effective protagonist To illustrate his claim Dawson pairs two sets of novels with unexpectedly comparable dilemmas Ivanhoe with The Picture of Dorian Gray and Wuthering Heights with Silas Marner In all four novels the effective protagonist is an apparently minor figure whose crucial function in the ordering of the events has been overlooked Rereading these well known texts in relation to hitherto neglected characters uncovers startling new issues at their heart and demonstrates innovative ways of exploring both narrative and literary tradition

Femininity Riccardo Dri,2024-09-01 In this thought provoking book the author explores the intricate dynamics of gender identity challenging conventional ideas about what defines being a man or a woman The narrative underscores the critical distinction between sex biological differences and gender socially constructed roles It argues that understanding identity requires recognizing the influence of both biological and cultural factors The book begins by questioning the validity of traditional gender definitions proposing that identity is shaped by a complex interplay between nature and culture It delves into the philosophical aspects of life and death suggesting that gender identity is not merely a conscious choice but a result of both biological and societal forces Further it scrutinizes gender theory critiquing the notion that gender identity can be chosen independently of biology The author asserts that while social constructs play a role biological differences are also crucial in shaping who we are The text also

traces the historical impact of gender roles highlighting how traditional paradigms have perpetuated inequality and how advancements like birth control have facilitated the emancipation of women Ultimately the book advocates for a nuanced understanding of gender identity emphasizing the need to critically examine societal norms and promote greater equality and autonomy It calls for philosophical inquiry to challenge ingrained assumptions offering profound insights for both men and women though it suggests men in particular may gain from its exploration of femininity This nearly 600 page volume offers a comprehensive analysis that is difficult to condense but it promises to touch deep layers of our understanding of gender and identity Woman gives us life nurtures us shares intimacy and embraces us in death embodying the cycle of existence which is inherently feminine Man emerging from this feminine essence realizes he is both her son and brother sharing the human experience At this point why not speak of universal incest We didn t seek another half but discovered an inseparable entity in the incomprehensible whole Thus we were brothers in myth before incest became sacrilegious

REVIEWS and WORDS OF PRAISE I didn t know what to expect from a book about women written by a man You expect maybe the usual clichés AND REALLY NO THIS TIME A MAN DID IT From Stefania s review editorial staff of [www.leggereacolori.com](http://www.leggereacolori.com) This work did not disappoint me It definitely held up to expectations exceeding them Review by Martina Tafuri We can safely say that his work was judged to be a very informative and engaging read very well written and sure to intrigue a wide audience Austin Macauley Publishers London and New York
