Do you have hidden superpowers and don't know it For thousands of years religion and spiritual beliefs from cultures all over the world have pointed to the idea that there is more to life than just the physical dimension The idea of having a Spirit Or Soul Of some kind is prevalent among all of them It seems only in recent times that we have been led to believe that life is simply made of the material world and nothing more Let alone you and I have any sort of control of what we can't see or touch But is that true Many would say yes But I'm asking you to suspend disbelief for just a moment and ponder the idea that maybe we might be missing something Something that science hasn't quite caught up to That maybe you are not just an evolved meat sack programmed to eat sleep work procreate and die That you are something more That there is a part of you that came with you from before you were born That you are more than your physical body And to take things one step further that you have direct access and control of that non physical part of your being What would that mean to you How would that change your life And not in a way that you just Believe it to be true But you got to experience it every day How would that make you feel Excited Scared Joyful Concerned Free Peaceful Curious Frustrated that nobody told you In 2005 I started my journey into the unknown first by accident but then by design and I can tell you I felt all the above at some time during this So while my job is not to convince you that you are more than just your physical body I hope that you will at least start your journey to find out for yourself There is a light inside of you and in everyone else in the world which I have seen that I hope you and everyone will become aware of one day In 2009 a study by Masaki Kobayashi Department of Electronics and Intelligent Systems Tohoku Institute of Technology Sendai Japan and Hitoshi Okamura Department of Brain Science Kobe University Graduate School of Medicine Kobe Japan found that While the article doesn't suggest it's our Light or spirit body That's emitting this light it opens up a can of worms that there is an energetic and not just physical part of our being we are not aware of just yet Is science on its way to finding out that we all have a spirit Suppose you did learn that you were energy first physical second and that Your consciousness survived after death That you could travel in spirit That there were other dimensions that you had access to That you could get higher guidance from spiritual masters directly And that you aren't just here to work eat and pay taxes What would you do with that information Would you run and hide from it Would you want the world to be the same as before you knew it Or would you want to know more about it As you go to bed tonight ask this

question And just consider that for a while With courage and curiosity you might just start your journey into the impossible and find out if you do have hidden superpowers and you can do it now
