Of that total, about 1.6 million units will be equipped not with Windows but Xandros Linux. The Eee is designed to open up new market segments. In the U.S. and other developed nations, it will be targeted largely at school students. Equipped with both learning programs as well as office and internet applications, the Eee will provide everything that students need regardless of their grade level. Because it is an ultra light, highly mobile yet fully capable computer, it will also appeal to business users and first-time computer buyers. This book will cover everything from turning the machine on and connecting it to the internet to how to upgrade, update, and generally get the most from these tiny computers.
