Tran, 2025-05-13 **Queer Vietnam** recovers the forgotten stories of variant genders and sexualities in early twentieth century Vietnam By the beginning of the 1900s European imperialism had spread Western notions of gender across much of Asia narrowing and delegitimizing what had been a wide range of acceptable gender practices But in Vietnam Western influence on gender remained uneven at best Through archival research and innovative readings of literary sources Richard Quang Anh Tran argues that Vietnamese culture embraced a much less rigid view of the human body and that a far more capacious vision of gendered personhood existed in this period than has been previously assumed Popular love stories involved cross dressing monks and traditional women who don male garb to fight in battle And accounts of proto lesbian friendships and a futuristic human civilization populated by a higher form of hermaphroditic species all found avid readers Together this material reveals that in Vietnam s interwar period tradition coexisted with and jostled against the modern While current perceptions of Vietnamese history rest on the exclusion of the queer subjects who depart from heteronormative ways of being this book brings them to the center and opens up new directions for both the historical study of gender and Vietnam s modernity Từ điển thành ngữ Anh Việt Ngọc Dũng Dương, 1992 **Zen in Medieval Vietnam** Cuong Tu

Congress,1974 [Southeast Asian Personalities of Chinese Descent](#) Leo Suryadinata,2012 This is a bold project recording the lives of a particular group of Southeast Asians Most of the people whose biographies are included here have settled down in the ten countries that constitute the region

Each of them has either self identified as Chinese or is comfortable to be known as someone of Chinese ancestry There are also those who were born in China or elsewhere who came here to work and do business including seeking help from others who have ethnic Chinese connections With the political and economic conditions of the region in a great state of flux for the past two centuries it is impossible to find consistency in the naming process Confucius had stressed that correct names make for the best relationships In this case Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have in one way or another made their homes in or made some difference to Southeast Asia I believe that when he and his colleagues selected the biographies to be included here they have taken a big step towards the rectification of identities for many leading personalities In so doing he has done us all a great service Professor Wang Gungwu National University of Singapore
