

Animal Farm: Study Guide Answer Key

Chapters 1 – 3

1. Identify Old Major, Boxer, Clover, Benjamin and Mollie.

- Old Major was an old pig highly regarded by the other animals. He began the whole idea of the revolution.
- Boxer was a huge, strong horse, not very smart but of good character.
- Clover was a motherly, middle-aged mare.
- Benjamin was a donkey, the oldest animal on the farm. He was skeptical, cynical, and never laughed. Also, he was friends with Boxer.
- Mollie was a "foolish, pretty white mare" who liked sugar and pretty ribbons.

2. For what purpose did Major call the meeting of the animals?

He wanted to tell them about his vision of a happier time for animals, a time when the animals can live together and have a much better life without Man.

3. After they vote and decide rats are comrades, Major summarizes his points for the animals to remember. What are they?

"Whatever goes upon two legs is an enemy. Whatever goes upon four legs, or has wings, is a friend. And remember also that in fighting against Man, we must not come to resemble him. Even when you have conquered him, do not adopt his vices. No animal must ever live in a house, or sleep in a bed, or wear clothes, or drink alcohol, or smoke tobacco, or touch money, or engage in trade. All the habits of Man are evil. And above all, no animal must ever tyrannize over his own kind. Weak or strong, clever or simple, we are all brothers. No animal must ever kill any other animal. All animals are equal."

4. What is "Beasts of England"? For what does it stand?

"Beasts of England" is the song of the revolution. It stands for the hopes and dreams of the animals for having a better life.

5. Why did the pigs get the job of teaching and organizing?

They were "generally recognized as being the cleverest of animals."

6. Identify Snowball, Napoleon, Squealer and Moses.

Snowball and Napoleon were two of the more prominent pigs. Napoleon was "not much of a talker but had a reputation for getting his own way." Snowball was "quicker in his speech and more inventive, but was not considered to have the same depth of character." Squealer was a brilliant talker. "Others said of Squealer that he could turn black into white." Moses was a tame raven who told the animals about Sugarcandy Mountain, where life was much better for animals.

7. What actually brought about the rebellion?

The animals were hungry and broke in to get food. When Jones tried to stop them, they ran him (and others) out.

Building an Ark Ethan Smith, Guy Dauncey, 2007-11-01 Building an Ark 101 Solutions to Animal Suffering is a first of its kind inspiring look at practical solutions for the humane treatment of animals and animal liberation. Animal cruelty has many forms: factory farms, habitat destruction, animal product testing, the abuse and neglect of companion animals, the illegal trade in endangered species, unsustainable fishing, and climate change. All these create unnecessary suffering for animals and destroy animal rights. For several decades there has been a global movement building an ever-increasing consciousness that will soon affect animal welfare and the future of life on Earth if it's given time to do so. Building an Ark is the story of this movement. Extensively researched and drawing on practical examples from around the world, it provides a voice for both the animals and the humans who have dedicated their lives to building a sustainable future for all species. The ark is ready for all to board: Individuals, action groups, schools, businesses, governments, farmers, fishers, developing nations. There's a role for everyone on this journey. Building an Ark offers a host of solutions that, if adopted, will ensure that animals will suffer less today and that humans and animals will share a more sustainable planet tomorrow. Ethan Smith is a writer, animal welfare advocate, and author/editor of the anthology *Softly On This Earth: Joining Those Who Are Healing Our Planet*. Guy Dauncey founded the Solutions Project and is author of several books, including *Stormy Weather: 101 Solutions to Global Climate Change*.
