Animation between Magic, Miracles and Mechanics Hans Henrik Lohfert Jørgensen, Laura Katrine Skinnebach, Henning Laugerud, 2023-08-18 When it comes to images, we are all animists. Deep down, we all know that images can at least potentially be alive or come to life. Nowadays, we may tend to rationalize our ingrained animism and explain it away as a mere projection only happening in the space between image and viewer. In the Middle Ages, however, imagery made enthusiastic use of magical, miraculous and mechanical means of animation, empowered and ensouled by both natural and supernatural principles of life. This animist book investigates magic, miracles and mechanics as motors of animation and seeks to understand the living image in solidarity with medieval experience rather than dismissive alienation of it. Effigies did bleed, weep or lactate either through divine intervention or through hydraulic machinery. Statues did move or speak either as demonic oracles or as talking heads with implanted speaking tubes. Marvels made by magic or by miracles were real as real as the wonders of physical mechanics moving bodily matter. We just need to look and listen more carefully to comprehend these fluid realities, even when especially

when they challenge our received worldview Animation was by no means uncontested or uncontradicted but even its stiffest critics knew that gods and demons could intervene in inanimate matter to set it in motion to speak in tongues and exude the liquids of life

Cartoonists and animators have given animals human characteristics for so long that audiences are now accustomed to seeing Bugs Bunny singing opera and Mickey Mouse walking his dog Pluto The Animated Bestiary critically evaluates the depiction of animals in cartoons and animation more generally Paul Wells argues that artists use animals to engage with issues that would be more difficult to address directly because of political religious or social taboos Consequently and principally through anthropomorphism animation uses animals to play out a performance of gender sex and sexuality racial and national traits and shifting identity often challenging how we think about ourselves Wells draws on a wide range of examples from the original King Kong to Nick Park s Chicken Run to Disney cartoons such as Tarzan The Jungle Book and Brother Bear to reflect on people by looking at the ways in which they respond to animals in cartoons and films
