Atheism The Case Against God The Skeptics Bookshelf:

Atheism George H. Smith, 2010-11-02 Does a god exist This question has undoubtedly been asked in one form or another since man has had the ability to communicate Thousands of volumes have been written on the subject of a god and the vast majority have answered the questions with a resounding Yes You are about to read a minority viewpoint With this intriguing introduction George H Smith sets out to demolish what he considers the most widespread and destructive of all the myths devised by man the concept of a supreme being With painstaking scholarship and rigorous arguments Mr Smith examines dissects and refutes the myriad proofs offered by theists the defenses of sophisticated professional theologians as well as the average religious layman He explores the historical and psychological havoc wrought by religion in general and concludes that religious belief cannot have any place in the life of modern rational man It is not my purpose to convert people to atheism but to demonstrate that the belief in God is irrational to the point of absurdity If a person wishes to continue believing in a god that is his prerogative but he can no longer excuse his belief in the name of reason and moral necessity

An Anthology of Atheism and Rationalism Gordon Stein, 1980 *The Publishers Weekly* , [The Truth about Uri Geller](#) James Randi, 1982 There is more to Uri Geller than his countless miracles and James The Amazing Randi tells all in this fascinating examination of the Geller myth What really makes Geller run Why have scientists reported on all Geller's successful psychic tests and ignored his many failures Why will Uri perform almost anywhere anytime except in front of professional magicians Can Geller actually bend spoons keys and nails with his psychic powers Why do people around the world continue to believe Geller has magic powers when his tricks have been exposed many times In an eye opening exposé Randi provides a devastating blow to Geller and the pseudoscience of parapsychology **The Worlds of the Early Greek Philosophers** James Benjamin Wilbur, Harold J. Allen, 1979 The authors of this book are presenting the written materials ascribed to the early Greek philosophers c 585 B C 400 B C and the historical context in which those writings occurred

The Psychology of the Psychic David Marks, Richard Kammann, 1980 *Inquest on the Shroud of Turin* Joe Nickell, 1983 The author presents evidence which he believes proves that the Shroud of Turin is actually the creation of a clever medieval artist Nickell traces the historical iconographic pathological forensic and physical and chemical investigations of the purported relic He describes the microchemical tests that he believes revealed artists pigments on the image and tempera paint in the areas claimed to be bloodstains The author attempts to demonstrate that the photographically negative image of the shroud can actually be convincingly simulated by means of an artistic technique employed in the Middle Ages *Scaling the Secular City* J. P. Moreland, 1987-02 This volume is a work in Christian apologetics which attempts to state and defend some of the arguments which support the rationality of the Christian faith Page 11 [Subject Guide to Books in Print](#) , 1997
