Andy Goldsworthy Touching Nature Special Edition Sculptors:

Andy Goldsworthy William Malpas, 1999 Jasper Johns L. M. Poole, 2007 Jasper Johns is one of the most poignant and sensual of postwar artists whose works command some of the highest prices for a living artist He is the creator of the famous flags targets ale cans numbers and letters series Here the author traces Johns development from the Rauschenberg era to the multi part Season paintings of the 1980s Vincent Van Gogh Stuart Morris, 2008 VINCENT VAN GOGH Few artists command such fervent devotion amongst art lovers and such high prices in the salerooms of the art world Love him or hate him Vincent van Gogh is one of a handful of artists who is now a cultural event Stuart Morris s study concentrates on the paintings first and employs van Gogh's eloquent letters as an aesthetic reference point Much of the book is concerned with metacriticism the way van Gogh has been critically received over the years Vincent van Gogh is one of the most celebrated of painters It s a bit of a mystery The mystery or irony is that his paintings have commanded the highest prices in the auction rooms of the contemporary art world 88 million dollars 53 million dollars and so on yet he only managed to sell one painting during his lifetime and he lived in poverty with financial support from his brother Theo Why is Vincent van Gogh so popular His legend has developed relatively rapidly His art is loved by the critics and public The crazy prices paid for single oil paintings are the manifestations of the fervour that van Gogh seems to generate He is one of the handful of painters who cause great excitement every time exhibitions of his work are put on One thinks also of Claude Monet Leonardo da Vinci Michelangelo Buonaroti and Pablo Picasso These are artists that the public go mad for so that when they are exhibited there are huge queues trailing around the block The 1990 centenary celebrations of poor Vincent showed how much he is exalted There were films about him discussions and conferences TV documentaries magazine articles reviews letters and much merchandize was sold to the great glee of the manufacturers posters tea towels calendars mugs souvenirs of all kinds What would the dishevelled obsessive man who painted those small canvases in the years up to 1890 in Southern France make of the amazing fuss that now surrounds his work What would van Gogh think of just one of his paintings being bought for 88 million dollars It is a huge sum even in today s expensive world You could build a hospital or two with the money Imagine it Did Vincent know that when he painted those blue irises on that small standard size canvas that it would one day be worth millions of dollars I shall count myself very happy if I can manage to work enough to earn my living for it worries me a lot when I think that I have done so many pictures and drawings without ever selling one Like the workers he depicted in numerous images Vincent van Gogh himself worked very hard to improve his art With a dogged determination van Gogh copied the Old Masters as well as Japanese prints His determined self education and self improvement paid off resulting in more than 800 paintings in about 8 years The years of van Gogh s art are relatively few nearly all of the important works were made in the decade 1880 90 Hence his paintings are credited in art history books with the month and sometimes the day as well as the year of production For most artists 1889 would suffice For van Gogh the credit is October 1889 Producing

800 paintings in 8 years is an average of a hundred per year or one every three and a half days More likely van Gogh would have worked on a number at the same time or within a short space of time Sculpture ,1998 Frank Stella James Pearson,2007 A new critical survey of the celebrated New York abstract painter Stella achieved success early on in his career with his Black Paintings of the late 1950s In the 60s his colourful Protractor series and geometric shaped canvases became some of the most distinctive manifestations of postwar and Minimalist art In the 1970s Stella went maximalist producing multi media works often using lumps of aluminium and steel which were vivaciously and complexly three dimensional A new special edition completely rewritten and many more illustrations
