**Learning Objectives:** The goal of this lesson is to develop Close Reading, as well as Analysis, Synthesis, and Evaluation skills. Speaking and Listening skills will also be focused through discussion. Students will analyze author's purpose, theme(s), diction, mood, tone, imagery, allusion, simile, personification, parallel structure, analogy, extended metaphors, metaphors, irony, symbolism, rhetorical questions, paradoxes, symbols, and other means of figurative language as rhetorical techniques. Most importantly, students will synthesize the ideas in several selections American texts with poetry and art. Finally, students will evaluate the ideas of Romantic writers in terms of relevance to their own lives and contemporary American culture.

### **Highlight 1 Objectives / Overarching Objectives**

1. Identifying Critical Information
2. Examining Similarities and Differences

**Purpose(s) prior to today's lesson:** The teacher tells students that the Romantic texts that they are about to read and analyze are some of the most famous in American literary history. The teacher implores upon students the power of these famed U.S. writings to influence the culture of ideas. The teacher provides background information on Emerson and Thoreau, and relates the ideas of these writers to American Romanticism and Transcendentalism. The teacher explains that the writings of the American Transcendentalists continue to influence us today, and the attraction of these literary movements can be seen in poetry and painting, as well as in our contemporary culture.

The teacher reminds students about the Analysis Handbook from earlier in the course. This handbook will be useful as they read and examine the selections. See below.

James, 2011-06 From the Preface to the Revised Edition Since its publication in 2007 Transcendental Phenomenological Psychology has been sold on every continent except Antarctica and is in the collections of research libraries in North America Europe and Asia Even so its presentation to the academic community rightly provoked many comments corrections suggestions and criticisms Such input while mostly welcome provided the impetus to publish a revised edition A phenomenological explanation of human consciousness has long been sought in regions of psychology since the discipline was first carved out of philosophical concepts and theories about the human condition In its earliest years Western psychology was faced with two possible directions for this explanation an empirical naturalistic approach along with physics and biology or a non empirical eidetic approach along with logic and mathematics Edmund Husserl took up the latter His phenomenological tradition of inquiry successfully spanned nearly forty years until suddenly stopped and largely suppressed during the Second World War This book recovers Husserl s revolutionary approach toward the human sciences just as it was developed and just as it is presented for further study Here the author systematically gathers what Husserl calls the leading clues in the phenomenological method proper for a psychology of affective inner experience and then for the first time applies Husserl s own methodology for introducing a phenomenological psychology in the transcendental register of human consciousness Unlike contemporary phenomenological psychology in the existential register transcendental phenomenological psychology is presented as an eidetic non empirical act psychology in Husserl s mature genetic phenomenology This novel approach takes in the full range of solipsistic and transcendental subjectivity in Husserl s theories of human consciousness and follows Husserl s lead in presenting phenomenological psychology as an applied geometry of intentional experience within a step wise theory of inquiry This book is unique in human science today not only in its presentation of the development and applications of Husserl s key concepts for the discipline of psychology but also for introducing a psychology that could be intuitively grasped as self evidently valid wherever one s interest might lie

context of transcendental epistemology It will be argued that the key premise transcendental conditional is synthetic necessary and a posteriori      Science and Religion, 1450-1900 Richard G. Olson, Richard Olson, 2006-03-10 Galileo Newton Darwin These giants are remembered for their great contributions to science Often forgotten however is the profound influence that Christianity had on their lives and work This study explores the many ways in which religion its ideas attitudes practices and institutions interacted with science from the beginnings of the Scientific Revolution to the end of the nineteenth century Both scientists and persons of faith sometimes characterize the relationship between science and religion as confrontational Historian Richard G Olson finds instead that the interactions between science and religion in Western Christendom have been complex often mutually supportive even transformative This book explores those interactions by focusing on a sequence of major religious and intellectual movements from Christian Humanist efforts to turn science from a primarily contemplative exercise to an activity aimed at improving the quality of human life to the widely varied Christian responses to Darwinian ideas in both Europe and North America during the second half of the nineteenth century

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
