## **Americas Way Back Reclaiming Freedom Tradition And Constitution:**

America's Way Back Donald Devine, 2014-04-08 The solution for the modern GOP Intellectual ammunition for the modern conservative movement SENATOR RAND PAUL How can America recover from economic stagnation moral exhaustion and looming bankruptcy Donald J Devine shows the way Devine a longtime adviser to Ronald Reagan lays out a powerful case for the philosophical synthesis of freedom and tradition that Reagan said was the essence of modern conservatism The secret of America s success he shows has been the Constitution s capacity to harmonize the twin ideals of freedom and tradition But today progressivism has so corrupted modern political thinking in both parties that leaders keep calling for the same failed tactics more money poured into more big government programs In America s Way Back Devine not only reveals where things went wrong and why but also points the way to reclaiming America s freedom prosperity and creativity The solution lies in a new fusion of traditional and libertarian thought

**The Enduring Tension** Donald J. Devine, 2021-01-26 Western civilization fashioned a capitalism that created a worldwide economic cornucopia and higher standards of living than any other system yet its legitimacy is often questioned by its beneficiaries Boston University Emeritus Professor Angelo M Codevilla proclaims Donald Devine s *The Enduring Tension between Capitalism and the Moral Order* the best answer to this question since Adam Smith s *Like Smith* Devine shows the mutually sustaining nature of morality and economic freedom and provides a much needed clearing away of the confusion with which recent authors have befogged this essential relationship Devine begins with Karl Marx setting capitalism s roots in feudalism and the implications of that traditionalist inheritance finally transformed by Rousseau s Christian heresy which turned the vision of heavenly perfection into an impossibly perfect ideal for earthly society To unravel this capitalist enigma Devine identifies the roots of the confusion critiques the rationalized responses and identifies the remedy the revival of an historical Lockean pluralism able to fuse a moral scaffolding sufficient to hold the walls and preserve the best of capitalist civilization

*Called to Freedom* Elise Daniel, 2017-01-09 Conservatism Republican politics and traditional Christianity are thought by some to go together like baseball and apple pie Yet for a growing number of people libertarian political thought provides an alternative to the traditional Christian right That number includes the six young authors of this book who explore and expound the case that one can be both a Christian and a libertarian *Called to Freedom* explores the major points of tension between the Christian faith and political liberty to demonstrate why the two can coexist in harmony Through their own personal experiences and from six different perspectives the authors offer both thoughtful arguments and encouragement to anyone navigating the space between Christianity and libertarianism It is in that space that the authors have found a home one that prioritizes the kingship of Jesus Christ and the inherent dignity of the people created in his image If you are a Christian exploring libertarian thought or if you feel caught between your Christian beliefs and libertarian political instincts this book is written for you Contributors Jacqueline Isaacs is the inaugural Fellow in Strategic Communication at the American Studies Program

Katz,2021 This book is a highly readable presentation of the laws regulating family relationships in the United States placing them in their historical and cultural contexts This third edition captures recent developments including the transformation of the institution of marriage to encompass same sex marriage **Coming Home** Ted V. McAllister,Bruce P. Frohnen,2019-05-14 Americans have been forced from their homes Their jobs have been outsourced their neighborhoods torn down to make room for freeways their churches shuttered or taken over by social justice warriors and their very families eviscerated by government programs that assume their functions and a hostile elite that deems them oppressive Conservatives have always defended these elements of a rooted life as crucial to maintaining cultural continuity in the face of changing circumstances Unfortunately official conservatism has become fixated on abstract claims about freedom and the profits of creative destruction Conservatism has never been the only voice in America but it is the most distinctively American voice emerging from the customs norms and dispositions of its people and grounded in the conviction that the capacity for self governance provides a distinctly human dignity Emphasizing the ongoing strength and importance of the

conservative tradition the authors describe our Constitution's emphasis on maintaining order and balance and protecting the primary institutions of local life Also important here is an understanding of changes in American demographics economics and politics These changes complicated attempts to address the fundamentally antitraditional nature of slavery and Jim Crow the destructive effects of globalism and the increasing desire to look on the federal government as the guarantor of security and happiness To reclaim our home as a people we must rebuild the natural associations and primary institutions within which we live This means protecting the fundamental relationships that make up our way of life From philosophy to home construction from theology to commerce from charity to the essentials of household management our ongoing practices are the source of our knowledge of truth of one another and of how we may live well together      *Freedom of Information and the Developing World* Colin Darch, Peter G Underwood, 2009-12-14 Rather than simply summarising the state of play in African countries and elsewhere *Freedom of Information and the Developing World* identifies and makes explicit the assumptions about the citizen's relationship to the state that lie beneath Freedom of Information FoI discourse The book goes on to test them against the reality of the pervasive politics of patronage that characterise much of African practice Develops a discourse about the concept of FoI Discussion of the human rights claim appropriates the concepts of Hohfeldian analysis for more radical purposes in support of the idea that the state has a duty to implement FoI practices      **Freedom** Jack D. Warren, 2023-10-03 Published under the auspices of the American Revolution Institute of the Society of the Cincinnati *Freedom The Enduring Importance of the American Revolution* is a narrative history of the War for Independence It tells the pivotal story of the courageous men and women who risked their lives to create a new nation based on the idea that government should serve people and protect their freedom Written for Americans intent on understanding our national origins but also appropriate for teachers and secondary classrooms *Freedom* argues that the American Revolution is the central event in our history the turning point between our colonial origins and our national experience This volume includes 167 full color paintings maps illustrations and photos many of them seen only in historical institutions across the country The *Freedom* narrative spans from the American Revolution's origins in the nature of colonial British America a society in which freedom was limited and in which everyone was the subject of a distant monarch through the crisis in the British Empire that followed the French and Indian War to the events of the War for Independence itself and ultimately to the creation of the first great republic in modern history This is the story of how Americans came to fight for their freedom and became a united people with a shared history and national identity and how a generation of founders expressed ideals of liberty equality natural and civil rights and responsible citizenship ideals that have shaped our history and will shape our future and the future of the world      *The Bill of Rights in Modern America* David J. Bodenhamer, James W. Ely (Jr.), 2008 An expert guide to current debates on individual rights in America      Faith and Freedom Sven R. Larson, 2019-07-29 As America approaches her 250th birthday she is also approaching a fork in the road The choice before us is moral and boils down to two terms

liberty or social justice We cannot have both This book written by a Swedish immigrant lays out the moral case for returning America to the Christian libertarian values that the Founding Fathers wrote into the Declaration of Independence and the Constitution These values guarantee liberty and opportunity but they also require responsible citizenship in return In understanding the latter we can resurrect the former By contrast the failure to understand responsible citizenship and its critical role in defending liberty opens the door for America to irrevocably change character Our country is already on the cusp of becoming a full fledged egalitarian welfare state defined not by liberty but by the endless pursuit of social justice As this book explains there is a path back to freedom one illuminated by faith paved with practical sensible policy reforms and traveled by people ready to exercise responsible citizenship **Congressional Record** United States. Schmiechen,2005 Jesus death and resurrection are undeniably central to the Christian faith But how precisely is their significance to be understood Concerned to reinvigorate the church s teaching on the cross the resurrection and salvation the atonement Peter Schmiechen here invites readers to rediscover the wealth of the Christian tradition In *Saving Power* he makes ample use of primary sources to unpack ten distinct theories of atonement welcoming aspects of each rather than championing only one Along the way he demonstrates that while most Christians assume the basic theme of atonement to be

sin and forgiveness other powerful themes liberation from oppressive powers reconciliation in the face of division and the hope of resurrection in the face of death for instance also deserve to be studied and preached Affirming orthodox teaching while offering a positive take on marginal views Saving Power is a crucial resource for anyone who seeks a fuller understanding of Christ s work      **The Constitution and American Public Education** Arval A.
