counter economic fallacy The Concise Guide makes a great gift to those who have never thought about the workings of economic logic and thereby misunderstand the case for free market capitalism From the Introduction by Llewellyn H Rockwell Jr The beauty of Cox s book comes from both its clear exposition and its brevity He offers only a few paragraphs on each topic but that is enough for people see both error and truth Sometimes just mapping out the logic beyond the gut reaction is enough to highlight an economic truth He does this for nearly all the topics that confront us daily Many people only have a moment That s why the guide is essential It is probably the shortest and soundest guide to economic logic in print May it be burned into the consciousness of every citizen now and in the future      **Marketing Information Guide** ,1954
