1. **The correct answer is B.** Tensions over westward expansion led to the French and Indian War. The Louisiana Purchase was made sixty years after Washington's "Journey to the French Commandant," and the Great Awakening, though contemporaneous, had very little effect on events leading to the French and Indian War. The Revolutionary War would indeed be partly caused by British limitations on expansion, but it was not the most immediate effect of these tensions.
2. **The correct answer is A.** By far, the main driving force behind organizations like the Ohio Company was expansion. Christianization was not nearly as much of a goal as it had been for the Spanish, for example, in South America. Unlike the Spanish, the English had little intention of or desire to mix in any way with the native inhabitants. However, warfare was not a goal but part of the cost of doing business, as it were, while secession didn't arise until independence had been won.
3. **The correct answer is C.** Note that Washington mentions that Singess and his tribe just happened to live where the Company wanted to put a fort. This is emblematic of westward expansion. Indians during this period tended to side with the French, who had no intention of mass settlement (and thus expulsion), which, naturally enough, the Indians did not welcome.
4. **The correct answer is D.** Other than horses, rivers were the primary mode of travel. But they weren't the sole means of transport (choice C). In 1754, no one had built any canals yet (choice B). Choice A is incorrect, as Washington's focus was not the rivers' aesthetic value.
5. **The correct answer is C.** An amazing number of still-used inventions arose during the second industrial revolution. From the first, America protected intellectual property, and high tariffs protect infant industries. Finally, while wealth was indeed concentrated during the Gilded Age, that's not as directly related to inventions as the fact that many inventions arose during this period.
