Aqa Maths Gcse January 2013 Question Paper:

Debates in Mathematics Education Dawn Leslie, Heather Mendick, 2013-10-01 *Debates in Mathematics Education* explores the major issues that mathematics teachers encounter in their daily lives. It engages with established and contemporary debates, promotes and supports critical reflection, and aims to stimulate both novice and experienced teachers to reach informed judgements and argue their point of view with deeper theoretical knowledge and understanding. Written by experts in the field of mathematics education, it investigates and offers fresh insight into topics of central importance, including Gender, social inequality, and mathematics. Mathematics, politics, and climate change. The history and culture of mathematics. Using popular culture in the mathematics classroom. The concept of ability and its impact on learning. What we mean by teaching for understanding. Choosing and using examples in teaching. The fitness of formal examinations. Designed to stimulate discussion and support you in your own research, writing, and practice. *Debates in Mathematics Education* will be a valuable resource for any student or practising teacher engaged in initial teacher training, continuing professional development, or Masters level study. It also has much to offer to those leading initial teacher education programmes and to beginning doctoral students looking for a survey of the field of mathematics education research. **Education Policy in**

England 2010-2024 Rebecca Morris, Thomas Perry, 2025-08-28 This text presents an informative overview of Conservative led education policy over the last 14 years. The book provides a broad and detailed picture of the developing education landscape in England during this period, highlighting the transformational and sometimes radical reforms that the country has seen. Crucially, the book draws together contributions from over 40 esteemed education researchers working in the UK. The chapters showcase work from a range of experienced and early career researchers, ensuring original thought, provoking and evidence-informed perspectives as we examine the impact of recent policy and explore how it might develop into the future. Key thematic areas covered include Restructuring and governing the system, Teaching policy, practice, and professionalism, Confronting the challenges of inclusion and inequality, Steering and transforming the curriculum and assessment. This timely collection will interest students at all levels, researchers, education professionals, and policymakers. It sheds important light on this tumultuous era for education policy and will inform those interested in this area for years to come. **Secondary Maths in Action** Emma McCrea, 2025-07-11 In *Secondary Maths in Action*, experienced curriculum expert and maths teacher Emma McCrea offers insights into the complex task of teaching maths. Taking an evidence-informed stance, Emma first explores the age-old question of why we study maths and the important role it plays in our lives and in society. Next, she examines several pertinent debates in maths: those of pupil grouping, mastery, and gender. Finally, we are taken on a grand tour of curriculum, pedagogy, and assessment as the fundamental pillars of great teaching. Additionally, the book includes four rich case studies revisited throughout the curriculum, pedagogy, and assessment chapters, which help to showcase how these ideas can be applied in various contexts so you can really see what it all looks like. *In Action* **The**
