Bankers in the Ivory Tower Charlie Eaton, 2022-02-25 Universities and the social circuitry of finance Our new financial oligarchy Bankers to the rescue the political turn to student debt The top how universities became hedge funds The bottom a Wall Street takeover of for profit colleges The middle a hidden squeeze on public universities Reimagining higher education finance from below Methodological appendix a comparative qualitative and quantitative study of elites **The Political Development of American Debt Relief** Emily Zackin, Chloe N. Thurston, 2024-06-21 A political history of the rise and fall of American debt relief Americans have a long history with debt They also have a long history of mobilizing for debt relief Throughout the nineteenth century indebted citizens demanded government protection from their financial burdens challenging readings of the Constitution that exalted property rights at the expense of the vulnerable Their appeals shaped the country's periodic experiments with state debt relief and federal bankruptcy law constituting a pre industrial safety net Yet the twentieth century saw the erosion of debtor politics and the eventual retrenchment of bankruptcy protections The Political Development of American Debt Relief traces how geographic sectoral and racial politics shaped debtor activism over time enhancing our understanding of state building constitutionalism and social policy **Should We Abolish Household Debts?** Johnna Montgomerie, 2019-05-07 We live in a culture of credit As wages have stagnated we've seen a dramatic surge in private borrowing across the western world increasing numbers of households are sucked into a hopeless vortex of spiralling debt fuelled by exploitative lending In this book Johnna Montgomerie argues that the situation is chronically dysfunctional both individually and collectively She shows that abolishing household debts can put an end to austerity and to the unsustainable forward march of debt dependent growth She combines astute economic analysis with the elements of an accessible guide to practical policy solutions such as extending unconventional monetary policy to the household sector providing pragmatic and affordable refinancing options and writing off the most pernicious elements of household debt This framework she contends can help us to make our economy fairer and to tackle both the housing crisis and accelerating inequality
