Manno,2020-02-19 Poker is a centuries old American game Why has it become so popular in the twenty first century What does current interest in the game tell us about ourselves and some of our most pressing social issues In this timely and thought provoking book Andrew Manno offers important insights into the intersection of gaming gender and capitalism that illuminate how the shift to a casino capitalist economy combined with a culture of toxic masculinity impacts workers and how it has led to the rise of populism in the United States that manifested in the 2016 election of Donald Trump **Sustainable**

Education and Development—Clean Energy Clinton Aigbavboa,Wellington Thwala,Joseph N. Mojekwu,Lawrence Atepor,Emmanuel Adinyira,Gabriel Nani,Emmanuel Bamfo-Agyei,2025-02-07 This book is Volume 1 of the proceedings of 2023 Sustainable Education and Development Research Conference This volume concentrates on papers in the area of clean energy Despite considerable progress more than 700 million people worldwide still lack access to electricity and around 2 4 billion people continue to use harmful and polluting fuels for cooking While efforts have been made to promote renewable energy and energy efficiency they have not been fast enough to achieve Sustainable Development Goal 7 Adding to the challenge the ongoing war in Ukraine has contributed to rising global energy prices and heightened energy insecurity in Europe In response to the energy crisis some European countries are planning to accelerate the transition to renewables and increase investments in clean energy and energy efficiency However others are considering a resurgence of coal which poses a risk to the overall green transition Between 2010 and 2020 the percentage of the global population with access to electricity increased from 83% to 91% with 1 3 billion people gaining access Nevertheless this leaves approximately 733 million people still without electricity and most of them reside in sub Saharan Africa Achieving universal access by 2030 the annual growth rate in access needs to accelerate from 0 5 percentage points to 0 9 percentage points necessitating significant efforts in low income fragile and conflict affected countries In 2020 69% of the global population had access to clean cooking fuels and technologies While more than half of those without access to clean cooking fuels live in Asia the 20 countries with the lowest percentage of people having access to clean cooking were predominantly least developed countries in Africa The share of renewable sources in total final energy consumption reached 17 7% globally in 2019 just slightly higher than the figure for 2015 The electricity sector leads in the adoption of renewables accounting for 26 2% of total final

energy consumption in 2019 while the heat and transport sectors have made limited progress Global primary energy intensity defined as global total energy supply per unit of GDP improved from 5.6 megajoules per dollar 2017 purchasing power parity in 2010 to 4.7 megajoules in 2019 However the rate of improvement 1.6% per year on average since 2015 falls short of the 3.2% annual rate needed to reach Sustainable Development Goal 7.3 International financial flows to support clean and renewable energy in developing countries reached 10.9 billion in 2019 a 23.6% decrease from 2018 This decline occurred even before the onset of the COVID 19 pandemic Over a longer five year moving average average annual commitments decreased for the first time since 2008 from 17.5 billion in 2014 to 16.6 billion in 2015-19 Although developing countries achieved a record of 245.7 watts per capita in installed renewable energy generating capacity in 2020 small island developing States least developed countries and landlocked developing countries have lagged behind It would take least developed countries and landlocked developing countries nearly 40 years and small island developing States almost 15 years to reach the same level of progress as the average developing country in 2020 The 2023 SEDRC conference titled Sustainable Development and Education aims to redefine the understanding of research in the continent's development and the role of researchers The conference focusses on applied research discussions and its dissemination Researchers from research institutions academicians postgraduate students politicians and industry representatives will be the primary audience for the conference proceedings *Ghana International Monetary Fund. Mickler,2019-06-13 The book draws upon the expertise and international research collaborations forged by the Worldwide Universities Network Global Africa Group to critically engage with the intersection in theory and practice of the Sustainable Development Goals SDGs and Africa s development agendas and needs Further it argues that and demonstrates how the SDGs should be understood as an aspirational blueprint for development with multiple meanings that are situated in dynamic

and contested terrains As the SDGs have substantial implications for development policy and resourcing at both the macro and micro levels their relevance is not only context specific but should also be assessed in terms of the aspirations and needs of ordinary citizens across the continent Drawing on analyses and evidence from both the natural and social sciences the book demonstrates that progress towards the SDGs must meet demands for improving human well being under diverse and challenging socio economic political and environmental conditions Examples include those from the mining industry public health employment and the media In closing it highlights how international collaboration in the form of research networks can enhance the production of critical knowledge on and engagement with the SDGs in Africa

The Impacts of Language and Literacy Policy on Teaching Practices in Ghana Philomena Osseo-Asare, 2021-03-15 This text critically examines changes in Ghanaian language and literacy policy following independence in 1957 to consider its impacts on early literacy teaching By adopting a postcolonial theoretical perspective the text interrogates the logic behind policy changes which have prioritised English local language or biliteracy It draws on data from interviews with teachers and researcher observation to demonstrate how policies have influenced teaching and learning Dr Osseo Asare s findings inform the development of a conceptual framework which highlights the socio cultural factors that impact the literacy and biliteracy of young children in Ghana offering solutions to help teachers combat the challenges of frequent policy changes This timely monograph will prove to be an essential resource not only for researchers working on education policies teacher education and English language learning in postcolonial Ghana but also for those looking to identify the thematic and methodological nuances of studying literacy and education in postcolonial contexts
