**High Static, Dead Lines** Kristen Gallerneaux, 2018-12-11 A literary mix tape that explores the entwined boundaries between sound material culture landscape and esoteric belief Trees rigged up to the wireless radio heavens A fax machine used to decode the language of hurricanes A broadcast ghost that hijacked a television station to terrorize a city A failed computer factory in the desert with a slap back echo resounding into ruin In *High Static Dead Lines* media historian and artist Kristen Gallerneaux weaves a literary mix tape that explores the entwined boundaries between sound material culture landscape and esoteric belief Essays and fictocritical interludes are arranged to evoke a network of ley lines for the sonic spectre to travel through a hypothetical presence that manifests itself as an invisible layer of noise alongside the conventional histories of technological artifacts The objects and stories within span from the mid nineteenth century to the present day touching upon military communications and cultural history A connective thread is the recurring presence of sound audible self generative and remembered charting the contentious sonic histories of paranormal culture **Return to the Parish** David Horn, Jason R. McConnell, 2022-11-04 *Return to the Parish* The Pastor in the Public Square is a pastoral theology that challenges pastors to view their local community rather than their congregation as their primary sphere of ministry Too many churches have become insular by hoarding their resources including their pastors and trying to sustain their own survival instead of seeking the peace and prosperity of their town or city By breathing new life into an old idea of parish this book casts a vision for pastors and churches to actively engage their community with the gospel rather than simply perpetuate more programs inside the church It offers a new paradigm for pastoral ministry where pastors model and mobilize their churches to make disciples of Jesus Christ in the public square through community involvement and cultural engagement The book chronicles seven young pastors from diverse ministry contexts as they seek to become new parish pastors who lead their congregations into engaging various sectors of the public square business and workplace science and technology healthcare politics education the arts and multiethnic settings [Covid-19 and Insurance](#) María Luisa Muñoz Paredes, Anna Tarasiuk, 2023-01-10 This book offers a novel study on the impact of the Covid 19 pandemic on insurance from an international and comparative perspective It assesses how insurance has to adapt to a new landscape the effects of which will last over time and cut across all areas of the field To avoid physical contact digitalisation has accelerated dramatically affecting insurance in all its phases risk selection underwriting pricing and claims settlement However the effects of the Covid 19 pandemic go far beyond that The extent to which a claim caused directly or indirectly by the virus is or is not covered by a given policy has been the subject of debate in many insurance branches The most litigated cases worldwide are those that concern damages resulting from business interruption due to restrictions enforced by the authorities in virtually every country This book analyses the rulings for and against the insured that have already been handed down by courts in various jurisdictions for example in the US Latin America Spain and Germany in order to provide guidance to the parties in

future lawsuits and also to guide the courts own responses This analysis extends to the measures that governments have taken in relation to insurance during the pandemic as well as the changes that insurers have introduced in their general conditions to exclude coverage for the pandemic This response is unsatisfactory as the big question is how pandemic related risks can be covered if private insurers simply refuse to do so Solutions based on risk sharing with public entities or the use of contractual modalities such as parametric insurance are among those outlined by the authors The book was written by experts from academia and lawyers specialising in this field and written for all those interested in the field of insurance lawyers judges academics and legal professionals

**in Polar Regions: Understanding Their Survival Strategies for a Sustainable Future** Prashant Kumar Singh, Shiv Mohan Singh, Trista J. Vick-Majors, 2024-07-02 Scientific research on cold adapted microorganisms specifically polar microbes is of great interest since Arctic and Antarctic regions harbor diverse and active populations of microorganisms However these microorganisms are subject to impacts of environmental perturbations For example climate change will modulate the distribution and activity of many cyanobacteria and algal species in polar environments that contribute significantly to global carbon fixation and oxygen production Moreover many microorganisms that have remained frozen for thousands of years can revive their metabolic activity and re join the modern microbial community For survival in freezing environments polar microorganisms have established specific regulatory mechanisms which are now being challenged by new rapidly changing environmental conditions Remarkable progress has been made to uncover microbial adaptation to anthropogenic activities such as high irradiance nutritional deprivation UV B radiation heat cold desiccation and heavy metals Studies have enabled a basic understanding of gene regulatory pathways for morphological physiological metabolic and genetic adaptations to various environmental stresses To further elucidate physiological adaptation mechanisms and molecular diversity in polar regions this Research Topic is focused on microbes in polar regions looking at their biodiversity
