Moral Injury in Veterans and Active Duty Military with PTSD Harold G. Koenig, Donna Ames, Arndt Büssing, 2019-12-11 This eBook focuses on a relatively new frontier in psychiatry the topic of moral injury MI which is examined here in the setting of post traumatic stress disorder PTSD among Veterans and Active Duty Military We define MI describe how to identify it by screening explain the impact that MI has on mental health outcomes particularly PTSD and mental health problems often associated with PTSD and provide information on what clinicians can do about it

While the focus here is on Veterans and Active Duty Military MI is much more widespread than just among former or current military personnel Healthcare professionals first responders clergy and many patients seeking mental health care are also likely suffering from MI which is not recognized or treated because clinicians are not familiar with it Burnout among health professionals and those engaged in other high stress occupations may often have MI as an underlying condition that is driving the burnout or related emotional condition Therefore psychiatrists and all mental health professionals must know about this syndrome utilize the tools now available to identify it and learn about interventions that can be employed to treat it Success in treating many of the common mental health conditions that appear resistant to treatment may depend on knowing about this new yet very old syndrome *Defense White Paper*, 2016 *Netherlands Annual Review of Military Studies* 2017 Paul A.L. neoliberal state Simon Granovsky Larsen asks whether the acceptance of neoliberal resources in this case support for land access in Guatemala provided by the World Bank funded Fondo de Tierras reduces the potential for social movements to continue to work for transformative change Positioned in contrast to studies warning that social movements cannot maintain their original vision after accepting such support this book argues that organizations within the Guatemalan campesino movement have engaged strategically with neoliberalism utilizing available resources to advance visions of social change Using a wealth of primary data collected over more than a year of fieldwork it contributes significantly to the study of Guatemalan politics and advances understandings of the grounded operation of neoliberalism Exploring both the dynamics of a national neoliberal transition and the ways in which these play out within civil society Dealing with Peace reveals the long term and often contradictory negotiation of political and economic transitions

Contemporary Military Reserves Eyal Ben-Ari, Vincent Connelly, 2022-12-30 This book offers a comparative study of military reserves in contemporary democracies A combination of budgetary pressures new missions and emerging military roles during the past three decades has led the armed forces of democracies to rethink the training and use of reserve forces Moreover reservists have become central to the armed forces as part of moves towards

total or comprehensive defense Despite this a scholarly bias towards studying regulars and conscripts means that reservists and reserve soldiers continue to receive only marginal attention This volume fills that lacuna through a series of country studies examining how best to understand the peculiarities of reservist service In contrast to regulars and conscripts reservists are marked by their dual management of civilian and military careers different family dynamics diverse motivations and commitment to the armed forces the material and non material incentives they are offered and their place in the political sphere This volume suggests two frames to make sense of such differences first it looks at reservists as transmigrants traveling between the military and civilian worlds and second it analyzes the multiple informal contracts and negotiations that bind them to the military All the chapters adopt these conceptualizations granting the volume a common focus and integrative frame The volume will be of much interest to students of military and strategic studies civil military relations sociology and International Relations New Directions in War and Culture Studies Martin Hurcombe, 2025-02-05

This edited volume explores the new directions emerging in the field of war and culture through six essays that examine conflicts and their cultural legacy from the First World War to the ongoing conflict in Ukraine The first two essays focus on the French experience of the World Wars through first a study of trench poetry and then the sexual experiences of POWs in Germany The next two essays focus on gendered and especially women's experiences of conflict through first a study of women's war labour in the British army and then analysis of women photojournalists role in promoting the adoption of Vietnamese babies in the USA This volume concludes with two essays focusing on twenty first century conflict The first explores representations of veterancy in contemporary Romanian fiction and the second the phenomenon of fanvids in relation to the ongoing conflict in Ukraine Originally published as a special issue of the Journal for War Culture Studies the book indicates new directions of travel for this sub discipline and reflects the Journal's commitment over the past two decades to bring the Arts and Humanities and the Social Sciences into dialogue with each other **Army Fundamentals**

Bethan Greener, 2017-05-01 How do we understand the functions of militaries of democratic societies How good soldiers are made how they behave when posted overseas the issue of gender and the increased use of military beyond their core functions all demand a closer academic examination This edited collection brings together work by exciting new scholars as well as established academics and examines the identity and functions of the New Zealand Army from a range of perspectives Drawing on anthropology political studies international relations development studies law and defence and security studies it provides a multi faceted view of one military organisation and helps further our understanding of the character and the challenges of military personnel and institutions in the twenty first century
