Astra Naomi Foyle, 2014-02-06 Is Land is a Gaian paradise in the middle of a blasted world but its success comes at a dark price Like every child in Is Land all Astra Ordott has ever wanted is to get her Security Shot do her National Service and defend her Gaian homeland from Non Lander infiltrators But when one of her Shelter mothers the formidable Dr Hokma Blesser tells her the shot will limit her chances of becoming a scientist and offers her an alternative Astra agrees to her plan Then the orphaned Lil arrives to share Astra's home and Astra is torn between jealousy and fascination Lil's father taught her some alarming ideas about Is Land and the world but when she pushes Astra too far the heartache that results goes far beyond the loss of a friend If she is to survive Astra must learn to deal with devastating truths about Is Land Non Land and the secret web of adult relationships that surrounds her or her actions could bring the whole community toppling down

Prototyping can be used as a means for checking the functional behaviour at this early stage of development. The adequate specification resulting from the first phase is then the basis for the second phase which comprises the derivation of an implementation. This phase requires the use of formal methods and tools to verify/validate the implementation. A prerequisite for applying this approach is to have a suitable mechanical support. This volume contains the proceedings of the International Workshop Tool Support for System Specification Development and Verification organized June 1-4 1998 in Malente, Germany. This workshop is the third in a series of events devoted to this topic. The first two workshops were held in 1994 in Kiel and 1996 in Bremen, Germany. The aim of this workshop is to provide a forum for researchers interested in the use and development of tools which support the use of mathematical techniques for the specification development and verification of systems. The workshop covers the spectrum from verification tools to graphical editors and compilers. The program of the workshop included an invited lecture and 26 talks. The invited lecture was given by F. W. von Henke, University of Ulm, on Mechanized formal methods and system design.

Stained Light Naomi Foyle, 2018-09-06. Astra Ordott tried and failed to deny her destiny. The final installment in the critically acclaimed SF quartet for Hunger Games fans of all ages. Library Journal Perfect for fans of Ursula K. Le Guin, Joan Slonczewski and Joyce Carol Oates. For ten years Astra Ordott has lived as a traitor, hated by most of her fellow prisoners and abused by the guards. She made the ultimate sacrifice to save those she loved, voluntarily giving up her freedom when she handed herself over to the Is Land authorities. Now long simmering conflicts are beginning to boil over again as the wider world faces devastating threats, both old and new. Non Land and Is Land are further from reunification than ever. Outside Astra's fortified Gaian homeland, an infertility crisis is threatening the survival of the human race while the world's reliance on rare earth metals is infuriating the ancient spirits of the planet. Astra may have found her voice as a messenger of cosmic harmony, but is anyone listening?
