Mechanisms (IAMs) Owen McIntyre, Suresh Nanwani, 2019-11-04 Multilateral development banks and other development agencies have adopted environmental and social safeguard policies setting due diligence standards for the provision of project finance. Such policies are evolving in terms of the activities covered and in their normative requirements. Recent iterations incorporate human rights requirements recognising the imperative of adopting human rights based approaches to development. Each institution has also established independent accountability mechanisms (IAM) variously functioning to ensure compliance with the applicable safeguards to advise management regarding the application of the obligations involved and to facilitate communication with affected communities and individuals with a view to resolving project related disputes. IAMs are central to the implementation, interpretation and ongoing elaboration of safeguard policies and thus to the environmental and social good governance so essential for sustainable development. This edited volume presents a series of in depth examinations by leading experts from banking institutions, academia and civil society of key aspects of the rapidly evolving practice of IAMs and of the implications of such practice for environmental and social governance. *Transatlantic Mergers and Acquisitions* Kai Lucks, 2007-06-27 This book is intended to show ways to successful cooperation. Going beyond M & A it demonstrates how economical ties and personal behaviour can positively influence our international relations. The value to M & A professionals will be generated through better understanding the views from the other side of the Atlantic through new M & A insights from other industries and from experts working in consulting and finance. Thus it is also of high value to all those working on partnerships between the USA or Germany and any other country. The book deals with many different aspects starting from overall strategies and ending up with lessons learnt from the special cases. Reflecting behavioural, economic or legal aspects there are articles showing one side only to work out country or industry specifics and others comparing the nationally different systems and surroundings. *Survey of Current Business*, 1983 **PC Mag**, 2003-08-19 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services.
