

How to use SYNC® AppLink™

SYNC AppLink is an exclusive SYNC feature that provides you with voice control, steering wheel control or touchscreen control of some of your favorite mobile applications available through your smartphone. You can download the SYNC-compatible app to your phone, connect your phone to SYNC and enjoy the experience through your vehicle's audio system, anywhere you drive.

HOW TO GET STARTED

- Make sure you download and install the latest version of the app from your phone's app store.
- Some apps require you to register them before using them with AppLink.
- Make sure you start the app on your phone to understand how it functions.

PAIR YOUR PHONE BEFORE USING SYNC® APPLINK

Your smartphone must be connected (paired) to SYNC in order to use the AppLink service. Make sure the vehicle's ignition and radio are turned on and the transmission is in Park (automatic transmission) or neutral (manual transmission).

1. Press the phone button; when the display indicates no phone is paired, press OK.
2. When Add Bluetooth Device appears in the display, press OK.
3. When Find SYNC appears in the display, press OK.
4. Put your phone into Bluetooth discovery mode. Refer to your phone's user guide if necessary.
5. When prompted on your phone's display, enter the six-digit PIN provided by SYNC in the radio display.
6. The display indicates when the pairing is successful.
7. Depending on your phone's capability and your market, the system may prompt you with questions such as setting the current phone as primary phone (the phone SYNC automatically tries to connect with first upon vehicle start-up), downloading your phone book, etc.

Please see the **Tips For Using AppLink** section for system requirements.
