D'Agostino, 2018-12-07 There is no shortage of innovative educational programs the challenge is learning how to scale and sustain those with strong evidence of effectiveness This book focuses on Reading Recovery one of the few educational innovations that has successfully expanded and established itself in several educational systems in the world Developed by Marie Clay in New Zealand during the mid 1980s Reading Recovery is an intensive intervention for young students who are struggling to learn how to read and has expanded to several countries across the globe over the last 30 years Providing evidence of the intervention s effectiveness both in the short and long term this volume presents in depth studies to elucidate why the program is effective discusses the trials and tribulations in scaling and sustaining the program and approaches scaling and maintaining from theoretical and practical perspectives The contributors to this book explain how Reading Recovery has established itself because it has maintained a strong focus on evidence developed a deep sense of community among its practitioners and was at the forefront in enhancing professional development of the teachers who delivered the intervention Understanding the implementation experiences of the intervention is beneficial for any innovation developer who wishes to grow and sustain an intervention The chapters in this book were originally published as articles in the Journal of Education for Students Placed At Risk PET and PET/CT Study Guide Andrzej Moniuszko, Adam Sciuk, 2012-10-06 The PET and PET CT Study Guide presents a comprehensive review of nuclear medicine principles and concepts necessary for passing PET specialty board examinations The practice questions and content are similar to those found on the Nuclear Medicine Technology Certification Board NMTCB exam allowing test takers to maximize their chances of success The book is organized by test sections of increasing difficulty with over 650 multiple choice questions covering all areas of positron emission tomography including radiation safety radionuclides instrumentation and quality control patient care and diagnostic and therapeutic procedures Detailed answers and explanations to the practice questions follow

Supplementary appendices include common formulas numbers and abbreviations along with a glossary of terms for easy access by readers The PET and PET CT Study Guide is a valuable reference for nuclear medicine technologists nuclear medicine physicians and all other imaging professionals in need of a concise review of the basics of PET and PET CT imaging

Reforming Reading, Writing, and Mathematics S.G. Grant, 2012-12-06 In this book S G Grant reports his study of how four Michigan elementary school teachers manage a range of reforms such as new tests textbooks and curriculum frameworks in three different school subjects reading writing and mathematics Two significant findings emerge from his comparison of these responses teachers responses vary across classrooms even when they teach in the same school building and also across the reforms a teacher might embrace reforms in one subject area but ignore proposed changes in another This study of teachers responses to reading writing and mathematics reform and the prospects for systemic reform is part of a growing trend to look at the intersection of curriculum policy and teachers classroom practice It is unique in the way the author looks at teachers responses to multiple subject matter reforms uses those responses as part of an analysis of the recent move toward systemic reform and employs empirical findings as a means of examining the current movement toward systemic reform *Reforming Reading Writing and Mathematics* is important reading for researchers practitioners and graduate students of educational policy teaching and learning in reading writing and mathematics and elementary education and for policy analysts in universities foundations and government

Imputation Methods for Missing Hydrometeorological Data Estimation Ramesh S.V. Teegavarapu, 2024-07-20 Missing data is a ubiquitous problem that plagues many hydrometeorological datasets Objective and robust spatial and temporal imputation methods are needed to estimate missing data and create error free gap free and chronologically continuous data This book is a comprehensive guide and reference for basic and advanced interpolation and data driven methods for imputing missing hydrometeorological data The book provides detailed insights into different imputation methods such as spatial and temporal interpolation universal function approximation and data mining assisted imputation methods It also introduces innovative spatial deterministic and stochastic methods focusing on the objective selection of control points and optimal spatial interpolation The book also extensively covers emerging machine learning techniques that can be used in spatial and temporal interpolation schemes and error and performance measures for assessing interpolation methods and validating imputed data The book demonstrates practical applications of these methods to real world hydrometeorological data It will cater to the needs of a broad spectrum of audiences from graduate students and researchers in climatology and hydrological and earth sciences to water engineering professionals from governmental agencies and private entities involved in the processing and use of hydrometeorological and climatological data

Education Reform and the Limits of Policy Michael Addonizio, C. Philip Kearney, 2012 While there is no doubt that an abundance of newly enacted education policies abounds across the state and across the nation more fundamental questions remain What is the nature of these reforms What do they hope to accomplish How successful have

they been In this book we attempt to provide some answers to these questions by examining a major set of education policy reforms undertaken in Michigan and across the country over the past 20 or more years These innovations include finance reform state assessment of student performance a series of school accountability measures charter schools schools of choice and for Detroit a bevy of oft conflicting policies and reform efforts that have belabored but seldom helped its public schools In the pages that follow we examine the decidedly mixed outcomes and effects of this large array of reform policies and programs Each chapter addresses a specific policy area outlining reform activity across the nation with an emphasis on Michigan s efforts as well as on one or two states that led these changes

Policy Perspectives on Educational Testing

Bernard R. Gifford,2012-12-06 America faces a crisis in education and its accompanying effects on the nation s economic and social life Educators and policy makers need to document the extent of this crisis to gauge its potential impact and to develop educational strategies that would boost achievement this has turned the spotlight on educational assessment the procedures practices and tools that educators use to measure the progress of students both as individuals and groups This book deals with a range of issues within the field of educational assessment with an emphasis on those issues that have sparked the public policy debate in recent years Much of this volume concerns itself with the impact of testing on various subgroups of the population blacks Hispanics young children and children considered to be of below average ability Taken together the contributions to this volume represent a broad range of views on differential test performance This book is part of the subseries of books based on the Ford Foundation s National Commission on Testing and Public Policy Previous titles in this program include Gifford Wing Test in Defense Gifford O Connor Changing Assessments Gifford Test Policy and the Politics of Opportunity Allocation and Gifford Test Policy and Test Performance

Setting Performance Standards

Gregory J. Cizek,2012-03-22 Setting standards of performance is a ubiquitous task in education licensure certification and credentialling It is found in elementary schooling the professions commercial applications and governmental and private organizations It is one of the most complex controversial and vexing issues facing specialists and policy makers today This second edition solidifies Setting Performance Standards as the only book providing a comprehensive profile of both the issues and the how to methods that define this thorny field Four chapters have been removed 11 chapters have been added 2 chapters have major revisions and all chapters have been updated Comprehensive Part I provides a conceptual overview of standard setting and its overarching issues Part II provides practical how to information on the newest standard setting methods Part III provides information and advice on persistent and potential challenges in standard setting Practical Part II the heart of the book reviews 16 of the newest standard setting methods far more than any other book Expertise Most of the well known authors from the 1st edition return with authors of equal stature contributing new chapters

Large-scale Assessment Programs for All Students

Gerald Tindal,Thomas M. Haladyna,2012-12-06 The need for a comprehensive volume that reviews both the processes and issues involved in developing administering and validating large scale

assessment programs has never been greater These programs are used for many purposes including instructional program evaluation promotion certification graduation and accountability One of the greatest problems we face is how to deal with special needs and bilingual populations Examining these processes and issues is the mission of this book It is organized into the following five sections Introduction Validity Issues Technical Issues Implementation Issues and Epilogue Each chapter follows a common structure Overview of critical issues review of relevant research descriptions of current assessment methodologies and recommendations for the future research and practice Written by nationally recognized scholars Large Scale Assessment Programs for All Students Validity Technical Adequacy and Implementation will appeal to anyone seriously involved in large scale testing including educators policymakers testing company personnel and researchers in education psychology and public policy

Reading Across the Life Span Steven R. Yussen, M Cecil Smith, 2012-12-06 One of the liveliest areas of research in the social sciences is reading Scholarly activity is currently proceeding along a number of different disciplinary lines addressing a multitude of questions and issues about reading A short list of disciplines involved in the study of reading would include linguistics psychology education history and gerontology Among the important questions being addressed are some long standing concerns How are reading skills acquired What are the basic components of reading skill How do skilled readers differ from less skilled ones What are the best ways to approach instruction for different groups of readers young beginning readers poor readers with learning problems and teenage and adult illiterates How can reading skill best be measured what standardized instruments and observational techniques are most useful The large volume of textbooks and scholarly books that issue forth each year is clear evidence of the dynamic nature of the field The purpose of this volume is to survey some of the best work going on in the field today and reflect what we know about reading as it unfolds across the life span Reading is clearly an activity that spans each of our lives Yet most accounts of it focus on some narrow period of development and fail to consider the range of questions that serious scholarship needs to address for us to have a richer understanding of reading The book is divided into four parts

Detroit After Bankruptcy Joe T. Darden, 2023-07-31 Detroit is the first city of its size to become bankrupt and policy makers have argued that since then it has entered a new beginning This book analyses whether Detroit's patterns of inequality on race and class lines still exist and whether the city is truly reversing its decline

Learning and Doing Policy Analysis in Education: Examining Diverse Approaches to Increasing Educational Access Maria Teresa Tatto, Justin Bruner, Fida Hussain Chang, Corvell George Cramfield, Tara Miyoko Kintz, Nai-Cheng Kuo, Sandra Kurtti Pylvainen, Andleeb Sharif, 2012-09-17 This book originated in a policy analysis class at Michigan State University taught during 2010 Using Professor Tatto's unique approach to teaching policy analysis the professor and students agreed to

construct a class that represented a reflective and grounded experience in the policy analysis of a current and relevant issue with global ramifications we began exploring policies that were developed at the global level and that were implemented locally We investigated the surge of globally developed standards and regulations in an effort to improve education Our goal was to learn cross nationally about policies that seek to reform curriculum and instruction under efficiency and global competitiveness arguments such as Education for All EFA and its USA cousin No Child Left Behind NCLB We knew our work would be bounded by the time available in a one semester class and by resource constraints We did exploratory inquiry supported by literature reviews reports on rigorous research studies and in one case an exploratory case study The policies we chose to explore such as EFA and NCLB offered us the opportunity to examine current reform tendencies that are intended to provide access to quality education for all children the preparation of teachers to support diverse populations the organization of schools to accommodate these children in response to vague policy mandates and power issues affecting the different constituencies and stakeholders The effects of these and other policies were difficult to track because research is scant and decisions are frequently made based on ideology or political persuasion Our purpose was to explore the critical issues that originated such policies and to search for documented evidence regarding policy implementation and effectiveness We investigated the factors that seemed to interfere with successful implementation from conceptual theoretical and methodological perspectives In this class we learned that there are not ready set frameworks for policy analysis but rather that these have to be constructed according to the issues that emerge as policies are conceptualized and implemented to fit local contexts and needs The book pays particular attention to the contexts of policy including the evolving conceptualization of global and local systems of governance knowledge regimes and policy spaces The book is designed for faculty and doctoral students in education who are interested in understanding diverse frameworks for policy analysis and for those in the general public who are interested in the policies we analyze here
