The Mystery of Personality Eugene Taylor, 2009-07-07 In *The Mystery of Personality* A History of Psychodynamic Theories acclaimed professor and historian Eugene Taylor synthesizes the field's first century and a half into a rich highly readable account. Taylor situates the dynamic school in its catalytic place in history re-evaluating misunderstood figures and events re-creating the heady milieu of discovery as the concept of mental science dawns across Europe revisiting the widening rift between clinical and experimental study or the couch and the lab as early psychology matured into legitimate science. Gradual but vital evolutions form the heart of this chronicle the ebb and flow of analytic theory and practice the shift from doctor centered to client centered therapy the movement from exclusionary to multidisciplinary the evolving role of the therapist. And as can be expected from the author there is special emphasis on the sublime in psychology the philosophy psychology fusion of the New England transcendentalists the battle between spiritualism and science in 1880s America and early versions of today's spiritually attuned therapies. Pivotal concepts and key individuals covered are Charcot Janet and the origins of dynamic personality theory in the so called French Swiss English and American psychotherapeutic axis Person and personality William James's radical empiricism The rise of psychoanalysis Freud the Freudians and the Neo Freudians Adler and Jung who were never students of Freud Toward within and beyond the self Murray Allport and Lewin at Harvard in the 30s Culture and personality pastoral counseling and Gestalt Psychology in New York in the 40s and 50s An Existential humanistic and Transpersonally oriented depth psychology in the 60s The current era science confronts itself as neuroscience enters the picture. Students of psychology and its history will find in this inspiring narrative both possibilities for further study and a new appreciation of their own work. *The Mystery of Personality* A History of Psychodynamic Theories is a stimulating course conducted by a master teacher
