of meaning In her model for meaning to be successfully communicated the reader must experience the transformation intended by the author Lyn Nixon applies her theoretical model to two examples of New Testament quotation where previous scholars have claimed the author quotes the Old Testament in a way that does not correspond to the original meaning Her case studies the use of Ps 115 1 LXX in 2 Cor 4 13 and of Ps 110 1 MT by various New Testament speakers and authors provide new insights into ways that the Old Testament meaning including its transformative intention resonates in the quoting of New Testament texts

Examination of the Isis Cult with Preliminary Exploration Into New Testament Studies Elizabeth A. McCabe, 2008

This work serves as an investigation of the Isis cult by tracing its development from Egypt into Greco Roman society The origin of the Isis cult is described by using the accounts of Plutarch Apuleius and Diodorus before examining the effects of Isis on Egyptian culture The Isis cult soon overflows into the Greco Roman world While this mysterious religion initially encounters opposition especially since it clashes with Roman patriarchal society it overcomes these limitations The relevance of Isis to New Testament studies is demonstrated by comparing similar Pauline practices to Isiac beliefs and practices The concepts of freedom salvation baptism and resurrection in Pauline Christianity overlap with Isiac beliefs The possibility of the Isis cult as an historical context is explored in the book of 1 Timothy which serves as an example of the intersection between the biblical text and the Egyptian cult of Isis

Being Conformed to Christ in Community James G. Samra, 2008-09-15

This work explores Paul's conception of maturity paying special attention to the maturation process and the role of the local church in facilitating this process Although central to Paul's theology maturity is often overlooked in Pauline studies An

exegetical theological study of the seven generally accepted epistles this work makes heuristic use of three studies for the purpose of illuminating Paul's thoughts regarding maturity a survey of modern psychology and analyses of the communities of Qumran and of the Therapeutae Samra argues that Paul understood his apostolic commission to involve delivering mature believers on the day of Christ Samra suggests that the central motif of Pauline maturity is conformity of believers to the image of Christ and that believers attitudes and actions become aligned with those exhibited by Christ who provides the defining standard of maturity for Paul For Paul there are five means used by the Spirit to conform believers to the image of Christ which Samra presents and analyzes as components of the maturation process namely identifying with Christ enduring suffering experiencing the presence of God receiving and living out wisdom from God and imitating a godly example Samra concludes by arguing that Paul expected the local church to facilitate maturation so that believers participation in a local assembly would result in their being conformed to Christ The church does this by facilitating the five components of the maturation process

Olson, 2016-12-12 Paul quotes and alludes to a great variety of Old Testament scriptural sources as he writes his epistle to the Romans Yet among these scriptural sources the apostle evidences a unique indebtedness to the prophecy of Isaiah Robert C Olson explains how from this great prophecy and its redemptive narrative centering in the proclamation of good news Paul derives all the major facets of the gospel he sets forth in the epistle
